Failure to adhere to any of the following rules will result in disqualification:

1. Contestant must hand in this test booklet and all printouts. Failure to do so will result in disqualification.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests or facsimile (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

No more than ten (10) minutes orientation
No more than sixty (60) minutes actual testing time
No more than ten (10) minutes wrap-up

Property of Business Professionals of America.
May be reproduced only for use in the Business Professionals of America
Workplace Skills Assessment Program competition.

General Instructions

1. Ensure this test booklet contains Jobs 1-4.
2. Key all jobs according to the instructions given.
3. Correct any obvious keyboarding errors and incorporate any editing notations.
4. Correct errors in formatting. Use the formatting shown in the *Style & Reference Manual*.
5. For any problem where you would normally key your reference initials, key your contestant number. Your name or initials should *not* appear on any work you submit.
6. Key your contestant number and job number in the lower left-hand corner of *all* work submitted unless otherwise specified.

SAMPLE:

The diagram illustrates the placement of the contestant number and job number in the footer area of a document. A dashed line represents the footer area. A small box labeled "Footer" is shown in the top left corner of this area. Below the dashed line, the text "11-2222-3333" and "JOB 1|" is shown, indicating the correct placement of the contestant number and job number.

7. If you finish before the end of the allotted testing time, notify the proctor. Time may be a factor in determining a winner when there is a tie score.
8. When turning in your materials, place your scoring sheet on top of your jobs. The jobs should be in numerical order.

PRODUCTION STANDARDS	
0 Errors	100 Points
1 Error	90 Points
2 Errors	70 Points
3 Errors	50 Points
4+ Errors	0 Points

JOB 1 – LETTER

Key the following letter from Tom Carlson Manager, Information Technology Department to Mr. John Wayne, Manager of Duck Creek Publishing located at 1460 Nugent Circle in Dallas, Texas 75039 using the *Style & Reference Manual* formatting guidelines. Use the current date. Copy to Julie Smith. Use an appropriate subject line.

Thank you for your request for additional training on the software that your company purchased from Professional Business Associates. We are excited that we are able to offer assistance with this training. With representatives in the Dallas, Texas, office we are able to customize a training session just for your company.

Professional Business Associates is very excited to have an opportunity to continue working with Duck Creek Publishing. Enclosed please find a listing of the different options and suggestions customized for your business. You will find several proposals with varying levels of services included. We look forward to hearing from you soon. Please contact me at (800) 698-4582 to discuss the enclosed information further.

JOB 2 – TWO PAGE REPORT

Key the following report from Tom Carlson to Julie Smith, Human Resources Department, using the *Style & Reference Manual* formatting guidelines. Use the current date. Use an appropriate title.

Employee monitoring involves the use of computers to observe, record, and review an employee's use of a computer, including communications such as e-mail, keyboard activity, and websites visited. Privacy issues for employers and employees have multiplied as computer technology creates many more ways to store, access, and share information. Many computer programs exist that easily allow employers to monitor employees. Further, it is legal for employers to use these programs which can help increase workplace security and employee productivity.

A frequently debated issue is whether an employer has the right to read employee e-mail messages. Actual policies vary widely. Some companies declare that they will review e-mail messages regularly; others state that e-mail messages are private. If a company does not have a formal e-mail policy, it can read e-mail messages without employee notification. One recent survey discovered that more than 73 percent of companies search and/or read employee files, voicemail, e-mail, web connections, and other networking communications. Another claimed that 25 percent of companies have fired employees for misusing communications technology.

Currently, no privacy laws exist relating to employee e-mail (Privacy Laws and Personal Data). The 1986 Electronic Communications Privacy Act provides the same right of privacy protection that covers the postal delivery service and telephone companies to various forms of electronic communications, such as e-mail, voicemail, and cellular telephones. The Electronic Communications Privacy Act does not cover communications within a company. This is for the reason that any piece of mail sent from an employer's computer is considered company assets. Several lawsuits have been filed against employers because many people believe that such internal employee communications should be private.

JOB 3 – TABLE

Key the following table single spaced with borders using the *Style & Reference Manual* formatting guidelines. Remove all hyperlinks from document and sort in ascending order by Last Name

Professional Business Associates

Information Technology Department Contact Information

Title	First Name	Last Name	Extension	Email Address

E-commerce Specialist	Faith	Tressler	6976	Faith.Tressler@pba.com
Website Developer	Tahraan	Vass	9784	Tahraan.Vass@pba.com

JOB 4 – MEMORANDUM

Key the following memo to Julie Smith, Human Resources Department Manager from Tom Carlson, Information Technology Department Manager using the *Style & Reference Manual* formatting guidelines. Use the current date and copy Nancy Wells, CEO. Use an appropriate subject line.

It has come to my attention that our employees are confused about the company's policies regarding the use of electronic resources, including internet access, email, and the use of social networking sites.

I would like to arrange a meeting with you in order to review and revise our existing Computer and Internet Use Policy. A clear distinction needs to be made between work use and personal use. We will also need to address the use of social networking sites. The scope of an internet usage policy is not to snoop on employees or deny them all access rights to the internet whilst at work; however, guidelines and rules need to be formulated to protect employees from being subjected to material that may be inappropriate to a work environment and that could result in legal ramifications. An internet usage policy also aims to educate users about web-borne threats and how irresponsible browsing can result in malicious packages being unknowingly downloaded onto a computer which in turn could infect the whole network.

Attached is the current Computer and Internet Use Policy, and please come to our meeting prepared to make recommendations and changes.
