

FUNDAMENTAL SPREADSHEET APPLICATIONS (230)

NATIONAL – 2019

Production Portion:

Job 1: Create Spreadsheet with Formulas _____ (170 points)

Job 2: Format Spreadsheet _____ (120 points)

Job 3: Create Donut Chart _____ (60 points)

TOTAL POINTS _____ ***(350 points)***

Failure to adhere to any of the following rules will result in disqualification:

- 1. Contestant must hand in this test booklet and all printouts. Failure to do so will result in disqualification.**
- 2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests or facsimile (handwritten, photocopied, or keyed) are allowed in the testing area.**
- 3. Electronic devices will be monitored according to ACT standards.**

No more than ten (10) minutes orientation
No more than ninety (90) minutes testing time
No more than ten (10) minutes wrap-up

Property of Business Professionals of America.
May be reproduced only for use in the Business Professionals of America
Workplace Skills Assessment Program competition.

GENERAL INSTRUCTIONS

1. Make certain this test booklet contains Jobs 1-3.
2. Put your contestant and job number in the right section of the footer on each printout. Your name or initials should *not* appear on any work you submit.
3. If you finish before the end of the testing time, notify the proctor. Time may be a factor in determining a winner when there is a tie.
4. When turning in your contest, the jobs should be arranged in printout order. On Page 3 is the rubric that will be used in scoring your printouts.

Special Instructions

Please use the following procedures for each sheet that you submit:

1. Save early and often. Loss of data, for any reason, is the contestant's responsibility.
2. Check the spelling on all worksheets.
3. Center all worksheets vertically and horizontally to print on *one* page.
4. Print all worksheets in Landscape format.
5. Print each chart on a separate sheet.
6. Key your contestant number and the job number in the right section of a footer on each worksheet and chart.

Scenario

Your student organization did a candy fundraiser. You need to create a spreadsheet using the figures given to turn in your final sales calculations.

Job 1 (Worksheet with formulas)	Points Possible	Points Earned
Contestant # and Job # in right section of footer	10	
11 pt. Times New Roman font used for data	10	
Data entered as seen in the instructions.	10	
CSV file: large candy sales import data inserted in cell A19	10	
Inserted 2 new rows after Diana King	10	
Inserted Larry David, and Tracy Adams and their purchase information	10	
Insert a new column D; labeled Name	10	
Inserted the concatenate function to combine first and last name into column D	10	
Move Label candy sales to cell D1	5	
Hide columns B and C	10	
Insert a new row above row 2 and entered the following items: • D2: Small Cost • E2: 2 • F2: Large Cost • G2: 4	5	
G4: absolute formula that calculates Small Box purchases using the small cost price field (filled down only for small boxes)	10	
G19: absolute formula that calculates Large Box purchases using the large cost price field (filled down only for large boxes)	10	
F37: total collected entered	5	
G37: function that gives a total purchased for all boxes	5	
Ranged entered for cells G4:G18: name range: smallbox	5	
Ranged entered for cells G19:G35: name range largebox	5	
Cell H19 insert the label: Total Small box purchases	5	
Cell H20 inset the label: Total Large box purchases	5	
Cell I19 function using small box range to calculate small boxes purchase totals	5	
Cell I20 function using large box range to calculate large boxes purchase totals	5	
Print a copy of the worksheet vertically and horizontally centered in landscape view. The print out should have a page set-up to fit 1 to 1 page.	5	
Print a copy of the worksheet showing the formulas vertically and horizontally centered in landscape view scale to one page. The print out should have a page set-up to fit 1 to 1 page.	5	
Subtotal	170	

Job 2 (Formatted worksheet)	Points Possible	Points Earned
Contestant # and Job # in right section of footer	10	
Merge and Center Candy Sales heading between cells A1 and G1. Cell style accent 1 applied. Font size adjusted to 16 and row height changed to 20.	20	
Formatted the following cell locations correctly: • E2 and G2 to currency with 2 decimal places • G4 to G35 to currency with 2 decimal places • F37 with text wrap • G37 with currency and 2 decimal places	20	
Row 36 removed	5	
Format cells A36 to G36 with a double border to the top	5	
Delete contents of cells H19 to I21	10	
Create a custom sort with the first level sorted alphabetically by teacher name, and second level sorted alphabetically by candy size	10	
Create a subtotal of data with the following criteria: • Change in: teacher • Function: Sum • Subtotal to: purchase total • Make sure summary below data is selected	10	
Format all teacher subtotal rows with a light green fill	5	
Format the grand total row with an orange fill	5	
Set the print area to cover cells A1 to G41	5	
Format the page setup to fit to one to one page with landscape	10	
Print out the formatted spreadsheet with it centered horizontally and vertically on the page	5	
Subtotal	120	

Job 3 (PivotChart)	Points Possible	Points Earned
Contestant # and Job # in right section of footer	10	
PivotChart created on sheet 2 with the following items included (in order) • Teacher • Candy Size • Quantity	10	
Change the sheet name to: Sales Breakdown	5	
Format chart to style 8	5	
Increased the chart to cover cells D2: M28	5	
Title size 24 font; times new roman style	10	
Change the chart colors to monochrome color 8	5	
Change the chart type to 3-D clustered column	5	
Legend is removed from the chart	5	
Pivot chart and information printed in grayscale; landscape orientation; scale to fit sheet on one page		
Subtotal	60	
TOTAL POINTS	350	

JOB 1: Create Spreadsheet with Formulas

1. Enter the following data into an Excel spreadsheet like shown below and complete the calculations as instructed. Use Times New Roman size 11 font and landscape orientation.

	CANDY SALES					
Teacher	First Name	Last Name	Candy Size	Quantity	Purchase total	Total Collected
Jones	Sam	Adams	SMALL BOX	1		
Talbut	Ann	Taylor	SMALL BOX	3		
Campbell	Laura	Ingalls	SMALL BOX	5		
Vazquez	Raul	Villa	SMALL BOX	2		
Campbell	Iliana	Smith	SMALL BOX	1		
Vazquez	Victor	Garber	SMALL BOX	4		
Jones	Lindsey	Wagner	SMALL BOX	3		
Talbut	Maria	Shriver	SMALL BOX	2		
Vazquez	Aracely	Arambula	SMALL BOX	5		
Campbell	Patrick	Stewart	SMALL BOX	3		
Vazquez	Freddy	Wong	SMALL BOX	1		
Jones	Connie	Sawyer	SMALL BOX	2		
Talbut	Brian	Epstein	SMALL BOX	8		
Vazquez	William	Drayton Jr.	SMALL BOX	7		
Campbell	Diana	King	SMALL BOX	6		

2. In cell A19, import the CSV file: Large candy sales import data.
3. You have one more Small Box purchase at the last moment, insert a new row after Diana King (small box) and add in Larry David, Small Box, 4.
4. You have one more Large Box purchase at the last moment, insert a new row after Diana King (large box) and add in Tracy Adams, Large Box, 4
5. Insert a new column D. Label the column: Name.
6. In cell D4 use the concatenate function to combine the names into one location. (don't forget to require the function to place a space between the words); Fill function down to last row of names.
7. Move label Candy Sales from Cell B1 to Cell D1.
8. Hide columns B and C.
9. Insert a new row above row 2. Place the label in cell D2: *Small Cost*. In Cell E2 place the value: 2 in cell F2: *Large Cost*. In Cell G2 place the value: 4.
10. In cell G4 place an absolute formula that totals the cost for the Small box purchases using the price listed in cell E2. Fill down to the last small box purchase.
11. In cell G19 place an absolute formula that totals the cost for the large box purchases using the price listed in cell G2. Fill down to the last large box purchase.
12. In cell F37 place the label: Total Collected

13. In cell G37 insert a function that gives a total amount purchased for all boxes for all classes.
 14. Create a Name range for cells G4:G18. Name the range: smallbox
 15. Create a Name range for cells G19:G35. Name the range: largebox
 16. Cell H19 insert the label: Total Small box purchases, in Cell H20 insert the label: Total Large box purchases.
 17. Insert a function in cell I19 using the small box range that calculates the total small boxes purchased.
 18. Insert a function in cell I20 using the large box range that calculates the total large boxes purchased.
 19. Create a Macro and name it: subheadings. The Shortcut key: CTRL + E. The following items are recorded to the Macro:
 - Font size: 14
 - Bold
 - Font color: Light Blue
 - Border: Top and Thick bottom
 20. Save the file as a Macro Enabled Workbook with the file name: candy sales
 21. Print a copy of the worksheet vertically and horizontally centered in landscape view. The print out should have a page set-up to fit 1 to 1 page.
 22. Print a copy of the worksheet showing the formulas vertically and horizontally centered in landscape view scale to one page. The print out should have a page set-up to fit 1 to 1 page.
-

JOB 2: Format the Spreadsheet you created in Job 1 using the following instructions:

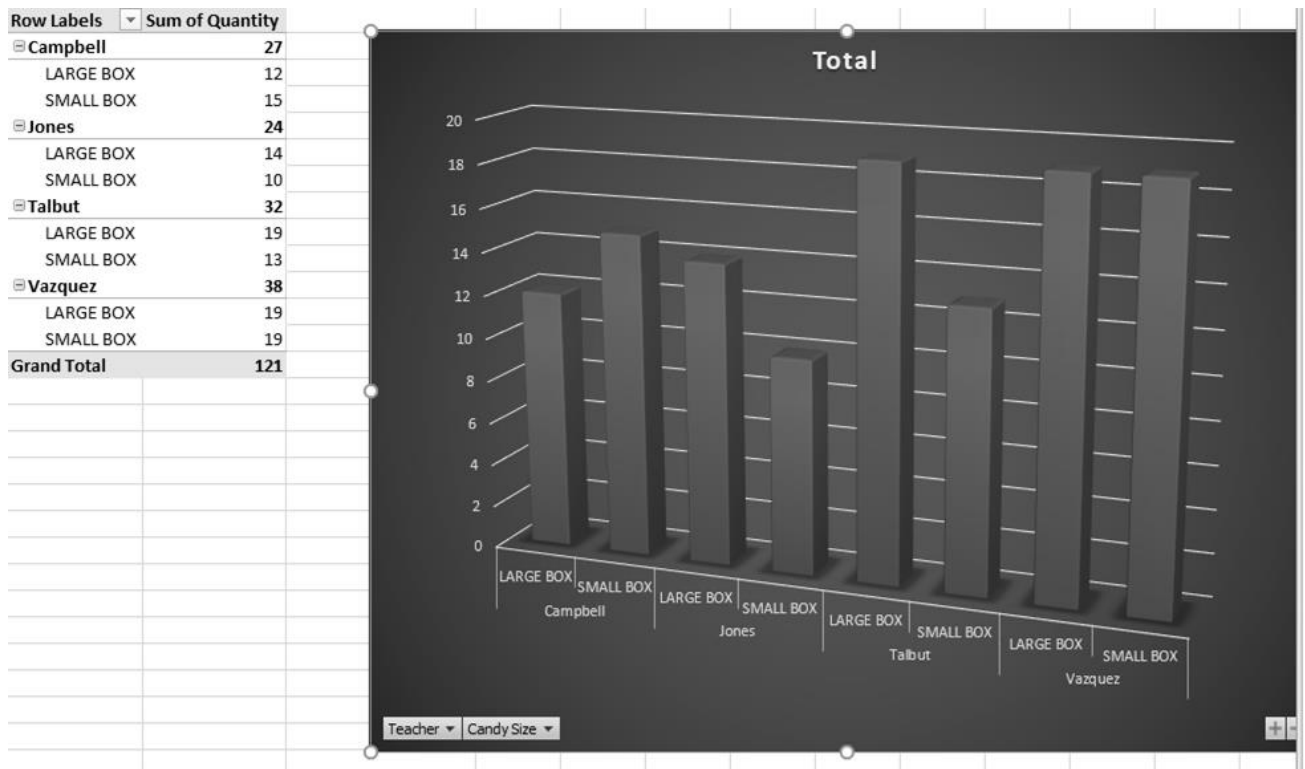

1. Select cells A3 to G3 and apply the subheadings Macro created in Job 1.
 2. Merge and center Candy Sales heading between cells A1 and G1. Apply Cell style accent 1 to the heading. Adjust the font size to 16. Adjust the row 1 height to 20.
 3. Format Cells E2 and G2 to currency with 2 decimal places.
 4. Format cells G4:G35 to currency with 2 decimal places.
 5. Format cell F37 with text wrap.
 6. Format cell G37 with currency with 2 decimal places.
 7. Remove row 36.
 8. Format cells A36 to G36 place a double border to the top.
 9. Delete cells H19 to I21.
 10. Create a custom sort with first level sorted by teacher name alphabetically and second level sorted by candy size alphabetically.
 11. Create a subtotal of the data using the following criteria:
 - Change in: teacher
 - Function: Sum
 - Subtotal to: Purchase total
 - Make sure summary below data is selected
 12. Format all teacher subtotal rows with a light green fill.
 13. Format the grand total row with an orange fill.
 14. Format the worksheet with a page setup of a fit to one page and landscape.
 15. Set the print area to cover cells A1 to G41.
 16. Print out the formatted spreadsheet with it centered horizontally and vertically on one page.
-

JOB 3: Create a PivotChart.

Create a PivotChart from the spreadsheet you have created in the previous jobs showing the breakdown of sales per teacher and candy size. It should be created in sheet 2. Change the sheet name to Sales Breakdown.

Format the chart to look like the following:

- PivotChart Fields to include (in order): Teacher, Candy size, Quantity.
- Increase the size of the chart to cover cells D2:M28.
- Format chart to style 9.
- Change title font style to Times New Roman, size 24 font.
- Change the chart colors to monochrome color 8.
- Change the chart type to 3-D clustered column.
- Remove the legend from the chart.
- Print out on full sheet in grayscale, landscape orientation, Scale to fit sheet on one page.

You should have the following four printouts:

Job 1—unformatted

Job 1—formulas

Job 2—formatted

Job 3—Pivotchart
