Specialties (10 @ 5 points each)	_____ (50 points)

Production:

Job 1: SOAP	_____ (100 points)
Job 2: Referral Letter	_____ (50 points)
TOTAL POINTS	_____ (350 points)

Failure to adhere to any of the following rules will result in disqualification:

1. Contestant must hand in this test booklet and all printouts. Failure to do so will result in disqualification.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests or facsimile (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

No more than ten (10) minutes orientation
No more than sixty (60) minutes testing time
No more than ten (10) minutes wrap-up

Property of Business Professionals of America.
May be reproduced only for use in the Business Professionals of America
Workplace Skills Assessment Program competition.

GENERAL INSTRUCTIONS

1. Answer the objective questions using instructions given by the administrator.
2. Make certain this test booklet contains the Parts I-V.
3. Key all jobs according to the instructions given.
4. Correct any obvious keyboarding errors and incorporate any editing notations.
5. Correct any errors in formatting. Use formatting shown in the *Style & Reference Manual*.
6. For any document where you would normally key your reference initials, key your contestant number. Your name or initials should *not* appear on any work you submit.
7. Key your contestant number and job number as the footer in the lower left-hand corner of all work submitted unless otherwise specified.

Example: 

99-9999-9999
Job 1

8. If you finish before the end of the 60 minutes of testing, notify the proctor. Time may be a factor in determining a winner when there is a tie score.
9. When turning in your materials, place your scoring sheet on top of your jobs. The jobs should be arranged in numerical order.

Production Standards	
0 errors	100 points
1 error	90 points
2 errors	70 points
3 errors	50 points
4+ errors	0 points

Part I - Identify the letter of the choice that best completes the statement or answers the question.

1. Physicians performed an emergency _____ to make a new opening in Ms. Jones' windpipe when she choked on a piece of food.
 - a. Colostomy
 - b. Tracheostomy
 - c. Mastectomy
 - d. Cholecystectomy
2. Surgical puncture to remove fluid from the sac around the fetus is called:
 - a. Amniocentesis
 - b. Hysterectomy
 - c. Laparotomy
 - d. Arteriosclerosis
3. A malignant (cancerous) tumor of flesh tissue is:
 - a. Neuroma
 - b. Hepatoma
 - c. Nephroma
 - d. Sarcoma
4. Separation of waste (urea) from the blood by filtration through a machine is called:
 - a. Hemodialysis
 - b. Electroencephalography
 - c. Abdominocentesis
 - d. Arthrocentesis

1. _____ Disease of the rod and cone layer of the eye
2. _____ Pertaining to under the nail
3. _____ Absence of the lens of the eye
4. _____ Inflammation of the ear
5. _____ Collapsed lung
6. _____ Pertaining to under the skin
7. _____ Incision of the eardrum
8. _____ Spitting up blood
9. _____ Instrument to visually examine the eye
10. _____ Surgical repair of the eardrum

Part IV: SOAP Documentation – 100 points

Directions:

Please prepare the following medical document using proper SOAP formatting. Use today's date as the date of transcription; use yesterday's date for dictation. Number items in the PLAN. Correct any misspelled words.

Patient Name: William Otto

PCP: Janice Karns, M.D.

DOB: 5/4/1933

DOE: Current

Sex: M

Subjective. The patient is a 66 year old male who was referred by his family physician because of a lesion that has been bleeding the last several months. The patient indicated that he has had this small lesion on his right temple for about a year, but he thought very little of it. It has grown in size, now measuring almost 1 cm in diameter. He occasionally has a burning sensation.

Objective. Physical exam shows an umbilicated lesion on the right temple that on vigorous touch bleeds slightly. The borders are raised

Assessment. Clinical appearance of a basal cell carcinoma. Explained to patient that skin cancer is local invasive and that it does not usually metastasize.

Plan. Excision to remove the basal cell carcinoma. Follow-up in six weeks.

Part V: Referral Letter – 50 points

Directions: Please prepare the following referring letter from Dr. Karns to accompany the above report. Be sure to include all necessary parts of the letter. Use the current date. Use the *Style & Reference Manual* for formatting.

This letter goes to Dr. Herschel Lavey, Capital City Medical Center, 210 Gemini Drive, Columbus, OH 45432. Include an appropriate salutation and complimentary closing.

I saw William Otto in my office, and he was diagnosed with basal cell carcinoma. Therefore, I am referring him to your office for surgery to remove the lesion, as well as any follow-up needed. Enclosed is his report.

If you have any questions or if I can be of any further assistance, please be sure to contact me. Thank you for taking care of the medical needs of this patient.
