Job 3 – Presentation:

Grader Notes: Slides are Blown Up for Grader Readability! Errors to be corrected are italicized, underline, or shadowed in the PowerPoint.

Savings is the portion of income not spent on current expenditures. Because a person does not know what will happen in the future, money should be saved to pay for unexpected events or emergencies. An individual's car may breakdown, their dishwasher could begin to leak, or a medical emergency could occur. Without savings, unexpected events can become large financial burdens.

What is Saving?

Investing is also about making priorities for your money. Spending is easy and gives instant gratification—whether the splurge is on a new outfit, a vacation to some exotic spot or dinner in a fancy restaurant. All of these are wonderful and make life more enjoyable. But investing requires prioritizing our financial futures over our present desires.

What is Investing?

Contestant No.

- Pay attention to your minutes and texts
- Start saving early and often
- Pack your own lunch – it's cheaper
- Educate yourself about saving and investing

Saving Tips for Teens

Contestant No.

- Use the Internet and Financial Institutions to determine the following:
 - How do I get started?
 - How much money should I invest?
 - What should I invest into?
 - What is the risk?

Start Saving Early for the Future

Contestant No.

- Try This:

- Create a *fantasy* account of \$10,000 and track different investments for a year. This is a great way to learn how investments work without any *financial* risk on your end.
