Arrive at John Glenn Columbus International Airport (CMH) at 10:30 a.m.

Job 2—Report

Directions:

Prepare the following 2-page report. The title of the report is PBA Information Technology Department. The sender is Tom Carlson. He is sending the report to Nancy Wells. Use the *Style & Reference Manual* formatting guidelines.

Over the past few weeks, many of our team members have been on the road, attending industry conferences and events and meeting with Information Technology community members in Ohio, Maryland and Virginia. We were fortunate to meet some incredible people on the road. Here are some of the highlights:

Our CEO, Nancy Wells, connected with state information technology leaders at the Ohio State Education Technology Directors Association (OSETDA) Leadership Summit & Education Forum in Cleveland, Ohio. The conference focused on personalized learning with a deep discussion on how states can demand interoperability to leverage data for academic excellence. We are excited to be working with OSETDA on state interoperability efforts and look forward to seeing what is accomplished!

Tom Carlson, Professional Business Associates director of Information Technology, met with the Virginia Council of Chief State Information Technology (VCCIT) at their IT Road Show in Tysons Corner, Virginia. Conversations centered on data standards, their use and quality, data privacy, and information management. We were particularly excited to explore with states replacing legacy systems, alignment and collaboration with CEDS, and implementing financial transparency reporting requirements.

We are excited to have NMB Technologies become a new client with PBA. David Flunder CEO of NMB Technologies was excited about our new cybersecurity system and was eager to become a client with PBA. NMB will send their information technology team and security developers to PBA in October for training on the new system. We are very excited to welcome NMB to the family.

Finally, all of our PBA information technology employees are now certified as Microsoft Certified Solutions Expert (MCSE) and Microsoft Certified Solutions Developer (MCSD), Cisco and Oracle certification programs. These certifications will help PBA have the most qualified employees and help keep PBA on the cutting edge of Information Technology.

As you can see the Information Technology Department has had an exciting August and being a part of the Maryland and Virginia road shows have really helped PBA get on the IT map. We will be hitting the road again to California, Washington and Nevada for more IT road shows in October.

Job 3—Table

Directions:

Prepare a table with borders using the *Style & Reference Manual* formatting guidelines.
