SUBJECT: Any Town Middle School Proposal

Thank you for meeting with me to discuss your technology needs at Any Town Middle School. I know that Professional Business Associates can provide you with the equipment and support that will take your school forward and provide your students with the 1 device per 1 student technology initiative you are hoping to implement in the next 3 years.

As discussed, I am outlining the items and pricing you requested. A formal proposal will follow but I did want to recap our visit to verify that everything is correct for the student population you are projected to have at Any Town Middle School in 3 years.

SUBJECT: Any Town Middle School Proposal

As discussed in our last discussion, we have researched out other Chromebook Models for your school to consider in the 1 student to 1 device Technology Initiative that your school is considering. As you can see the price does vary depending on what options you need the Chromebooks to have. There are pros and cons of each model, so Professional Business Associates would recommend asking your school stakeholders for feedback on what needs and wants are to be considered.

After looking and comparing the various model features, prices, pros and cons, we would really recommend that your school consider the one of the following models: Acer Chromebook Spin 11, Samsung Chromebook Pro, Asus Chromebook Flip, or HP Chromebook 13. They are all comparable in price and features, and will not deplete the bonds and grants your school will be using to implement this initiative.
