APPLICATION

During this exercise, you are only allowed to use Notepad. The use of any other type of text editor such as Notepad++ or web development tools such as Dreamweaver or Expression Web will result in immediate disqualification from this event.

A screen capture of the expected end result is included for your inspection and to be used as a guide for completing this exercise.

When complete, print all code generated for this exercise (HTML and Style Sheet). Also print a screen capture of your finished work as it appears in the web browser so that it may be used for scoring purposes.

Submit all printed pages, along with your copy of this test and your answer form, to your proctor.

You have been asked to create a website using HTML5 and CSS over Social Media. This site needs to look like the web page shown in the screen capture provided in this packet. Make sure it meets all the requirements below.

Overall Requirements:

1. The document must be a valid HTML5.
2. The document must be styles with an external Cascading Style Sheet
 - a. All styles must be done with the style sheet. Using tags or style attributes within tags is PROHIBITED.

General Page Requirements:

1. Set the HTML document to English.
2. The head tag must have a meta element with the character set attribute with value of UTF-8.
3. Above the title you need to add the Social Media picture
 - a. Make this a class on your style sheet. Align it to be on the left side of the page, with a width of 50 pixels and height of 5 pixels
 - b. Give the alternative text “Social Media Picture”
4. Title should have **Social Media--Your Contestant Number**
5. Look at the webpage screenshot as a reference of where to type the following text onto your webpage:
 - a. Social Media – *Span Class label “heading”*
 - b. Social media can be an amazing thing. We all use it every day in great ways: connecting with people, access to information, fun and enjoyment, shopping, etc. However social media has its cons: information overload, peer pressure and cyber bullying, privacy issues. Everything you type, post, and share will never truly delete. Even when you think it will. As a student, you might not worry about everything you post and share, but one day you will. You will need to worry about how you social media makes you appear for when you are applying for a job, starting a business, or building a brand.
 - c. What should you do – *H1 Class labeled “title”*

- d. Create a Leveled List of the following (note: you need to make a ul class to make the level 2 bullets square, name this Class “Square”. Level 1 bullets should be circles.)
 - Understand the permanency of the Internet. Before posting, sharing, or typing anything, ask yourself these questions:
 - Is this something I mind future employers seeing?
 - What is my motive in posting this?
 - Could this post hurt someone or myself?
 - Is anything I’m sharing confidential or sensitive information?
 - Keep your social media accounts and information PRIVATE
 - Go take the time to make sure all your social media accounts are private.
 - Stop sharing your location at all times.
 - Don't ever share your full name, birthday, home address, etc.
 - Is anything I’m sharing confidential or sensitive information?
 - If you feel uncomfortable with things you have shared and posted in the past and feel overwhelmed by trying to clean up your past, then start fresh by taking the time to delete your current social media accounts and create a new account.
 - e. For most people social media is a part of our everyday lives. Therefore it is important to know that we need to take the time to be aware of what you are posting and sharing, as someone is always watching. There is nothing to be afraid of, if you are choosing to make good choices online.
 - f. Take Action – *H1 Class labeled “title”*
 - g. Create a Bulleted List of the following:
 - Go remove a post or a comment that you aren’t the most proud of.
 - Go make one of your social media accounts private.
