Regional Final Scenario

Isra is an IT specialist with Professional Business Associates. During a department meeting, you noticed that Isra seemed to not be focused and was oftentimes staring into space. You stop by Isra's work station and ask if there is anything you can do to help. The employee informs you that they have a parent who was recently diagnosed with cancer. Isra is an only child and has been working with both parent and doctors to develop a treatment plan and schedule. Isra has had to take several days off recently to be with the parent and is expected to need more time off for surgery and further treatment. Isra only has a few more paid days off and this is causing feelings of depression. How can you help Isra?

As the Human Resources Manager, how would you handle this situation? In your solution, include recommendations for this employee. Use your *Human Resources Manual* as a guide.
