PRESENTATION MANAGEMENT- INDIVIDUAL (555)

STATE 2021

Description:

Assess use of current desktop technologies and software to prepare and deliver an effective multimedia presentation.

Topic:

The coronavirus pandemic has disrupted life for communities around the world and will continue to do so for the foreseeable future. For students setting their sights on a post-secondary education, the process of finding the right fit has become more challenging. Post-secondary institutions are grappling with the tasks of recruiting, admitting, and orienting students who may not be able to step foot on campus. And then there is the fact that the on-campus experience will have to change as well. As a student interested in pursuing continuing education, research and prepare a creative presentation outlining trends in the college admissions/new student arena.

Things to consider, but not limited to, include:

- What are strategies used by colleges to recruit students if the admissions counselors can't meet with high school students in person nor can they conduct in person campus visits?
- How will admissions testing (ACT/SAT) play a role in the recruitment process?
- What strategies can be used by campuses to orient students when they are not allowed on campus?
- How will living on campus change in the foreseeable future?
- One reason students want to attend a college and/or live on campus is to socialize and meet people. With social distancing in place, how will campuses develop socialization opportunities?
- Limit your presentation to the strategies only; not to specific companies that provide products
- Use data to support your presentation
- Follow Copyright Guidelines when using company logos and likenesses
