10. The term medial refers to the side.

Multiple Choice: Please select letter that *best* answers the question.

11. Which prefix means fast?
 - A. pseudo-
 - B. tachy-
 - C. endo-
 - D. brady-
12. Which combining form means nose?
 - a. rhin/o
 - b. pulmon/o
 - c. laryng/o
 - d. ot/o
13. Which of the following suffixes does *not* refer to a surgical procedure?
 - a. -megaly
 - b. -plasty
 - c. -ostomy
 - d. -ectomy

14. Which of the following types of tissue is designed to conduct electrical impulses?
- epithelial
 - nervous
 - muscular
 - connective
15. Which of the following terms means pertaining to the spinal cord side of the body?
- cephalic
 - distal
 - dorsal
 - superior
16. Which of the following body systems receives sensory information and coordinates the body's response?
- nervous
 - respiratory
 - special senses
 - musculoskeletal
17. Which of the following is *not* a structure that is found in all cells?
- cell membrane
 - cytoplasm
 - nucleus
 - epithelium
18. The gallbladder and the majority of the liver are located in the _____ quadrant.
- left upper
 - right upper
 - right lower
 - left lower
19. The neck is the _____ region of the body.
- dorsal
 - cervical
 - caudal
 - cephalic
20. Which of the following directional terms means toward the surface of the body?
- distal
 - deep
 - superficial
 - superior
21. Which of the following directional terms is the opposite of anterior?
- dorsal
 - ventral
 - cephalic
 - caudal

22. Which of the following organs is located inside the pleural cavity?
- a. stomach
 - b. heart
 - c. lungs
 - d. urinary bladder
23. The cranial cavity contains the ____.
- a. stomach
 - b. heart
 - c. brain
 - d. spinal cord
24. In the anatomical divisions of the abdomen, the upper row contains which of the following regions?
- a. lumbar
 - b. umbilical
 - c. inguinal
 - d. epigastric
25. Acne ____ is the common form of acne seen in teenagers.
- a. impetigo
 - b. rosacea
 - c. vulgaris
 - d. verruca
26. A pigmented skin blemish, birthmark, or mole is called a(n) ____.
- a. ecchymosis
 - b. nevus
 - c. eschar
 - d. keloid
27. Which of the following terms means abnormal condition of excessive sweat?
- a. anhidrosis
 - b. ahidrosis
 - c. hyperhidrosis
 - d. hypohidrosis
28. An infection of the skin fold around the nail is called ____.
- a. perionychitis
 - b. onychia
 - c. onychophagia
 - d. paronychia
29. Which of the following types of fracture is commonly seen in children?
- a. stress fracture
 - b. comminuted fracture
 - c. simple fracture
 - d. greenstick fracture

30. Which of the following is a sudden, involuntary, strong muscle contraction?
- a. dyskinesia
 - b. myopathy
 - c. spasm
 - d. hyperkinesia
31. Vertebrae are an example of what type of bone?
- a. irregular
 - b. long
 - c. short
 - d. flat
32. The fibrous connective tissue that wraps muscle is called ____.
- a. ligaments
 - b. adipose
 - c. tendons
 - d. fascia
33. Movement away from the midline of the body is called ____.
- a. abduction
 - b. adduction
 - c. flexion
 - d. circumduction
34. The opposite action from flexion is ____.
- a. plantar flexion
 - b. inversion
 - c. elevation
 - d. extension
35. Which of the following bones is *not* part of the appendicular skeleton?
- a. sternum
 - b. femur
 - c. clavicle
 - d. humerus
36. An example of a fibrous joint is the ____.
- a. shoulder joint
 - b. jaw joint
 - c. skull sutures
 - d. tendon symphysis
37. Skeletal muscles are attached to bones by ____.
- a. ligaments
 - b. bursa
 - c. synovial joints
 - d. tendons

38. Which of the following procedures examines the inside of a joint?
- a. arthroscopy
 - b. arthrotomy
 - c. arthrocentesis
 - d. arthroplasty
39. Which of the following terms means fast heartbeat?
- a. fibrillation
 - b. bradycardia
 - c. tachycardia
 - d. hypercardia
40. Which of the following conditions involves severe chest pain caused by a deficiency of oxygen to the heart muscle?
- a. congestive heart failure
 - b. myocardial infarction
 - c. coronary artery disease
 - d. angina pectoris
41. Which arteries carry deoxygenated blood to the lungs?
- a. pulmonary
 - b. systemic
 - c. vena cavae
 - d. aortic
42. Which of the following terms means pounding, racing heartbeat?
- a. plaque
 - b. palpitation
 - c. angiospasm
 - d. murmur
43. In bacterial endocarditis, the mass of bacteria that forms is referred to as ____.
- a. vegetation
 - b. a thrombus
 - c. bacterioma
 - d. pyoma
44. Blood is returned to the right side of the heart by the ____.
- a. pulmonary artery
 - b. aorta
 - c. pulmonary vein
 - d. vena cavae

45. Blood cells are produced in the _____.
a. thymus gland
b. red bone marrow
c. spleen
d. liver
46. Which of the following medications prevents blood clot formation?
a. fibrinolytic
b. hematinic
c. anticoagulant
d. antihemorrhagic
47. Which of the following conditions is a cancer?
a. leukemia
b. septicemia
c. pernicious anemia
d. polycythemia vera
48. Which of the following is a general term meaning a blood disease?
a. hematoma
b. dyscrasia
c. hemostasis
d. hematology
49. Which of the following is an emergency treatment given to patients when their breathing and heart stop?
a. Heimlich maneuver
b. cardiopulmonary resuscitation
c. intermittent positive pressure breathing
d. thoracentesis
50. The tonsils in the throat are considered part of the _____.
a. lymphatic system
b. respiratory system
c. endocrine system
d. digestive system
