Release June 3, 2022

DIGITAL SOLUTIONS COMMUNITY OUTREACH PROJECT

Digital Solutions is pleased to announce the partnership with the Columbus school district to offer training and support to the Digital Design and Computer Programming students. We will leverage our wisdom and financial support to provide leadership, training and internship opportunities for students seeking to pursue a career in Graphic Design and Software Development.

As companies seek to continue to hire qualified personnel in those areas, we see a need to provide training and opportunities to our young people to pursue those careers. This will open up numerous opportunities for students to continue to explore this area and we know that it will benefit our business as well as the community.

Follow us on **Instagram**, **Facebook**, Twitter, and Snapchat as we go through out first year with the program.
