Rank: _____

FUNDAMENTAL SPREADSHEET APPLICATIONS (230)

NATIONAL 2022

Production:

Job 1: Worksheets with answers and formulas _____ (145 points)

Job 2: Formatting worksheet _____ (130 points)

Job 3: Charts _____ (70 points)

TOTAL POINTS _____ (345 points)

Test Time: 90 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.
4. Put your Member ID and printout number in the right section of the footer on each printout unless instructed otherwise. Your name or initials should *not* appear on any work you submit.
5. If you finish before the end of the testing time, notify the proctor. Time may be a factor in determining the winner in the event of a tie.
6. When turning in your contest, the jobs should be arranged in printout order.

SCENARIO:

You work for Digital Solution's Investment Corporation and are an assistant in the stock office. Your job is to work up keep track of the stock spreadsheets for individual clients. You are tasks with completing the end of month stock results to send to the clients. Today you are working on the spreadsheet for the client Agnes Shunpike.

Job 1 (Worksheets with answers and formulas)	Points Possible	Points Earned
Member ID and Job # in right section of footer	10	
10 pt. Franklin Gothic Book font used for data	10	
Landscape orientation with narrow margins	10	
Type the following: A1 Digital Solutions Investment Corporation, A2 Client, and B2 Agnes Shunpike (5 points each)	15	
Type the information in appropriate cells as pictured (-2 per typographical error)	10	
Inserted a formula to find the profit or loss percentage in F5:F34	10	
Inserted a formula that calculates the final holding value in H5:H34	10	
Inserted a formula in I5:I34 that calculates the value of the profit or loss	10	
Inserted a function that calculates how many stocks had a 70% profit gain in F36	10	
Inserted a function that calculates how many stocks had a 30-70% gain in F37	10	
Inserted a function that calculates how many stocks had less than a 30% gain in F38	10	
Inserted a function that calculates the maximum value in I40	10	
Inserted a function that calculates the minimum monetary value in I41	10	
Worksheet printed landscape on one page centered vertically and horizontally, with gridlines, all data visible and formulas showing	10	
Subtotal	145	
Job 2 (Formatting worksheet)	Points Possible	Points Earned
Member ID and Job # in right section of footer	10	
Merge and center A1 through I1	5	
Format the title to a title cell style	5	
Format the A2 and B2 to Heading 3 cell style	5	
Insert the image the bull and bear. Format this image to a height of .52" and width of .92", and centered in column I above the table.	10	
Format the image with picture style "simple frame black"	5	
Bold, center, and wrap text for column headings (5 points each)	15	
Add a thick bottom line to A4:I4	5	
Format columns D, E, H, and I to comma with 2 decimal places	10	
Format cells F5: F34 to percentage with zero decimals	10	
Format 140 and 141 to currency, 2 decimal places	10	
Set conditional formatting to cells F5:F34 to a cell value less than zero to show in light red fill with dark red text	10	
Set conditional formatting to cells I5:I34 to a cell value less than zero to show in light red fill with dark red text	10	
Set conditional formatting to cells I5:I34 with a cell value greater than zero to fill color of light green	10	

Worksheet printed landscape on one page centered vertically and horizontally with all data visible	10	
Subtotal	130	
Job 3 (Charts)	Points Possible	Points Earned
Created a cluster column graph that shows the stock name, price paid, and closing price	10	
Titled the graph Price Chart	5	
Moved the Price Chart to a separate sheet	5	
Created 2D bar chart that filters only NYSE listings and the value of profit/loss	10	
Titled the chart NYSE – Value of Profit/Loss	5	
Moved chart to a separate sheet	5	
Inserted data labels on the outside end	5	
Created a 2d bar chart that filters only NASDAQ listings and the value of profit/loss	10	
Titled the chart NASDAQ – Value of Profit/Loss	5	
Moved chart to a separate sheet	5	
Inserted data labels on the outside end	5	
Subtotal	70	
TOTAL POINTS	345	

JOB 1: Create Worksheets with answers and formulas

1. Set the global options to include the following modifications: Franklin Gothic Book, 10pt, Landscape, centered horizontally and vertically, Fit to One Page, and Narrow Margins.
2. Use the file provided named worksheet and add the following: A1: Digital Solutions Investment Corporation, A2: Client, and B2: Agnes Shunpike
3. Update the worksheet by adding the data for column C with NYSE or NASDAQ and inserting the information for cells A36 to A 41.

	A	B	C	D	E	F	G	H	I
4	Company Name	Ticker Symbol	NYSE or NASDAQ	Price Paid	Closing Price	Profit/Loss%	Number of Shares	Holding Value End of January	Value of Profit/Loss
5	ALCOA INCE	AA	NYSE	22.1	27.43		56		
6	AMBER INTL GROUP INC	AIG	NYSE	39.48	66.71		85		
7	AMER EXPRESS INC	AXP	NYSE	121.34	56.82		112		
8	BOEING CO	BA	NYSE	220.64	83.4		117		
9	CITIGROUP INC	CA	NYSE	67.16	50.43		54

33	WALMART STORES	WMT	NYSE	149.75	51.6		138		
34	EXXON MOBILE CP	XOM	NYSE	40.06	69.71		120		
35									
36	Over 70% Gain								
37	Between 30%-70% Gain								
38	Less than 30% Gain								
39									
40	Maximum Value Profit								
41	Lowest Value Profit								
42									

4. In F5:F34, insert a formula to find the profit or loss percentage; subtract the closing price from the price paid and divide by the price paid.
5. In H5:H34, insert a formula that calculates the final holding value of the stock based on closing stock price and number of stocks owned.
6. Insert a complex formula in I5:I34 that calculates the monetary value of the profit or loss per stock value; multiple the number of shares by the change in price.
7. In F36, insert a function that counts how many stocks had a 70% profit gain.
8. In F37, insert a function that counts how many stocks had a 30-70% gain.
9. In F38, insert a function that counts how many stocks had less than a 30% gain.
10. In I40, insert a function that calculates the maximum monetary value earned for the month of January.
11. In I41 inert a function that calculates the minimum monetary value earned for the month of January.
12. Print a copy of the worksheet with gridlines, adjust column widths to make all data visible and **formulas showing**.

JOB 2: Format the worksheet you created in Job 1 using the following instructions:

1. Merge and center the title A1 through I1.
2. Format the title to a title cell style.
3. Format the client and client name to Heading 3 cell style.
4. Insert the image the bull and bear. Format this image to a height of .52” and width of .92”, and centered in column I above the table.
5. Format the image with picture style “simple frame black”.
6. Bold, center, and wrap text the column headings
7. Add a thick bottom line to A4:I4.
8. Format columns D, E, H, and I to comma with 2 decimal places.
9. Format cells F5: F34 to percentage with zero decimals.
10. Format column G to comma style with 0 decimal places.
11. Format I40 and I41 to currency, 2 decimal places.
12. Set conditional formatting to F5:F34 to a cell value less than zero to show in light red fill with dark red text.
13. Set conditional formatting to cells I5:I34 with a cell value less than zero to show in light red fill with dark red text.
14. Set conditional formatting to cells I5:I34 with a cell value greater than to zero to fill color of light green.
15. Print out the formatted spreadsheet.

JOB 3: Charts

- Create a cluster column graph that shows the stock name, price paid, and closing price.
- Title the graph Price Chart.
- Move the Price Chart to a separate sheet.
- Create 2D bar chart that filters only NYSE listings and the value of profit/loss.
- Title the chart NYSE – Value of Profit/Loss.
- Move chart to a separate sheet.
- Insert data labels on the outside end.
- Create a 2D bar chart that filters only NASDAQ listings and the value of profit/loss.
- Title the chart NASDAQ – Value of Profit/Loss.
- Move chart to a separate sheet.
- Insert data labels on the outside end.
- Print all three charts.

You should have the following five printouts:

Job 1—Formulas

Job 2—Formatted

Job 3—3 Charts
