DATABASE APPLICATIONS (240)

NATIONAL 2022

Production:

Job 1: Import Officials Type Table	_____ (50 points)
Job 2: School Table	_____ (50 points)
Job 3: Athletic Director Table	_____ (75 points)
Job 4: Relationship	_____ (25 points)
Job 5: Macros	_____ (100 points)
Job 6: Athletic Director Form	_____ (100 points)
TOTAL POINTS	_____ (400 points)

Test Time: 90 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

DATABASE APPLICATIONS SCORING SHEET

<i>Unless indicated otherwise, student receives all points or none.</i>	Points Possible	Points Earned
Job 1 –Import Officials Type Table (50 points maximum)		
Imported Officials Type table with 2 field names	10	
Imported 9 records	10	
Renamed table to be Officials Type XXXXX	10	
Change design to match design notes (Official Type all caps and primary key)	10	
Printed using best fit in portrait orientation (all data shows, 1 page)	10	
Total Points - Job 1	50	
Job 2 - School Table (50 points maximum)		
Designed as instructed (earn 1 points per field for accurate field names, appropriate data types, and <u>all</u> appropriate properties set-including design notes)	6	
Proofreading/data entry (.5 points off for each error of entering schools)	9	
Appended the table for a total of 12 records	25	
Sorted by the primary key (descending)	5	
Printed in landscape orientation (all data shows, 1 page)	5	
Total Points - Job 2	50	
Job 3 – Athletic Director Table (75 points maximum)		
Designed as instructed with 7 Record names (earn 1 point per field for accurate field names)	7	
Set Phone Number with input mask	10	
Set Email as Hyperlink	11	
Official Type looks up values from the Officials Type table with both the Type ID and Description shown in the list and allowed Multiple Values	11	
School Code looks up values from the School table with both the School Code and School name showing. Did not allow multiple values	10	
Entered all 8 records error free (1 point per line)	16	
Sorted by Last Name ascending	5	
Printed using best fit in landscape view (all data shows, 1 page)	5	
Total Points - Job 3	75	

DATABASE APPLICATIONS

NATIONAL 2022

Page 4 of 9

Job 4 – Relationship (25 points maximum)		
Created one to many relationship between Official Type Table and Athletic Directors Table with referential integrity enforced	10	
Created one to many relationship between School Table and Athletic Directors Table with referential integrity enforced.	10	
Printed in Portrait orientation, (all data shows, 1 page)	5	
Total Points - Job 4	25	
Job 5 – Macro		
Created Open Official Types Table macro	10	
Set Official Types macro argument name to Official Types Table	5	
Set Official Types macro view to datasheet	5	
Set Official Types macro data mode to edit	5	
Created Open School Table macro	10	
Set School Table macro argument name to School Table	5	
Set School macro view to datasheet	5	
Set School macro data mode to edit	5	
Created Athletic Director Table macro	5	
Set Athletic Director macro argument name to Athletic Director Table	10	
Set Athletic Director macro view to datasheet	5	
Set Athletic Director macro data mode to edit	5	
Printed all 3 macros in correct order	25	
Total Points – Job 5	100	
Job 6 – Athletic Directors Form		
Created Athletic Directors Form	10	
Created a calculated control that concatenates the First Name field, a space, and the Last Name field	15	
Made a Combo Box for AD #.	10	
Inserted a rectangle around AD # and Name	10	
Added a Close Form Button	10	
Printed Close Form button	10	
Added a button to open the Athletic Directors Table	10	
Added button to open the Officials Type Table	10	
Added button to open the School Table	10	
Printed Patricia Fujii's record	5	
Total Points – Job 6	100	
Total Points Earned	400	

Create a database named NATIONALS-XXXXXX where XXXXX is your Member ID, and save.

Job 1: Import Officials Type Table

1. Import the table named **Officials Type** from the Excel workbook “Officials Type” on the storage device you were provided. The Excel workbook contains a header row. Your table should have 9 records.
2. Rename Table to correct name of Officials Type-XXXXXX where XXXXX is your Member ID.
3. Review the records. Update the table design to use best data types and properties considering the field values. Include the following notes in your design:

Design Notes:

Field Name	Properties
Type ID	• Field size 2 • Format uppercase • Primary Key
Description	• Field Size 25

4. Print best fit, portrait.

Job 2: Create School Table

1. Create the table named **School-XXXXXX** where XXXXX is your Member ID. Use the same field names and assign best data types and properties considering the field values shown below. Include the notes listed below the table in your design.
2. Append table with the excel worksheet named School.
3. Sort the table by the primary key in descending order.
4. Print the table in landscape orientation. All data should be visible on one page.

School Code	School Name	Address	City	State	Postal Code
TC	Tri-County High School	341 HWY 24	Remington	IN	47977
BR	Blue River Valley	4741 Viking Trail	New Castle	IN	47362
EC	Evansville Central High School	5400 N First Ave	Evansville	IN	47710

Design Notes

Field Name	Property Notes
School Code	• Short Text • Format Uppercase • Primary Key • Field Size 2
School Name	• Short Text • Field Size 35
Address	• Short Text • Field Size 35

City	• Short Text • Field Size 25
State	• Short Text • Field Size 2
Postal Code	• Field Size 5

Job 3: Athletic Directors Table

1. Create the table named **Athletic Directors-XXXXX** where XXXXX is your Member ID. Use the same field names and assign best data types and properties considering the field values shown below. Include the notes listed below the table in your design.

AD #	First Name	Last Name	Contact Number	Email	Official Types	School Code
JH	James	Hoffman	(340) 555-7208	HoffmanJ@AHS.org	BB, BK, FB, G, SC, TF	AH
MH	Mary	Haddad	(227) 555-8943	HaddadM@DHS.org	BB, BK, CC, FB, SB, VB	DH
JP	John	Patel	(916) 555-6345	PatelJ@GHS.org	BB, BK, SB, SC, TF, VG	GH
PF	Patricia	Fujii	(757) 555-0020	FujiiP@BHS.org	BB, BK, SB, VB	BH
RB	Robert	Bando	(413) 555-3183	BandoR@PHS.org	FB, G, SB, SC, TF, VB	PH
JW	Jennifer	Williams	(206) 555-2897	WilliamsJ@HJH.org	BB, BK, CC, FB, G SB, SC, TF, VB	HJ
MP	Michael	Perez	(759) 555-9814	PerezM@AS.org	BB, BK, CC, FB, SB, TF	AS
LA	Linda	Abad	(219) 555-6345	AbadL@BE.org	CC, TF, BB, SB	BE

Design notes:

Field Name	Property Notes
AD #	• Short Text • Format Uppercase • Primary Key
First Name	• Short Text • Field Size 25
Last Name	• Short Text • Field Size 35
Contact Number	• Set an appropriate input mask and store the symbols
Email	• Hyperlink
Official Types	• Lookup wizard to refer to the Officials Type table allowing multivalued in the field

	• Show Official Type and Description
School Code	• Lookup wizard to refer to the school table. Limit the field values to only the items in the list, and do not allow multiple values for the field • Show School Code and School Name

2. Enter all the records.
3. Adjust the column widths so all entries are visible.
4. Sort the table by Last Name in ascending order.
5. Print the table in Landscape orientation. All data should be visible on one page.

Job 4: Relationship

1. Create a relationship between the three tables.
 - a. One to many relationship
 - b. Enforce referential integrity
2. Print the relationship
 - a. Portrait
 - b. Make sure you can see everything
 - c. On one page
 - d. Name Relationship for Nationals XXXXX where XXXXX is your member ID.

Job 5: Macros

1. Create three submacros:
 - a. Add the first submacro to the macro, using OpenOfficialsType as the name for the submacro.
 - i. Use the OpenTable action to open the Officials Type table in Datasheet View and in Edit data mode.
 - ii. Save as Open Officials Type Table XXXXX where XXXXX is your Member ID.
 - b. Add a second submacro to the macro, using OpenSchools as the name for the macro.
 - i. Use the OpenTable action to open the Schools table in Datasheet View and in Edit data mode.
 - ii. Save as Open Schools Table XXXXX where XXXXX is your Member ID.
 - c. Add a third submacro to the macro, using OpenAthleticDirectors as the name for the macro.
 - i. Use the OpenTable action to open the Athletic Directors table in Datasheet View and in Edit data mode.
 - ii. Save as Open Athletic Directors Table XXXXX where XXXXX is your Member ID.

- d. Print the macros accepting default settings

Job 6: Athletic Directors Form

1. Create an Athletic Directors Form
 - a. Add Form Header Saying Athletic Directors Form XXXXX where XXXXX is your Member ID.
 - b. Create a calculated control that concatenates the First Name field, a space, and the Last Name field.
 - c. Make a Combo Box for AD #.
 - d. Put a rectangle around AD # and Name.
 - e. Add a Close Form Button to close the form. Display text Close Form. Print Code from the close form button.
 - f. Add a button to Open the Athletic Directors Table using the macro
 - g. Add a button to Open the Official Type Table using the macro
 - h. Add a button to Open the School Table using the macro.
 - i. See Sample below

Athletic Director Form XXXXX
