MULTIPLE CHOICE

Identify the choice that *best* completes the statement or answers the question.

16. Which of the following glands is an endocrine and an exocrine gland?
 - a. thyroid
 - b. pancreas
 - c. pineal
 - d. thymus
17. Which of the following terms describes the elevated portions, or convolutions, on the surface of the cerebrum?
 - a. gyri
 - b. ventricles
 - c. synapse
 - d. sulci

18. The anterior portion of the sclera is the _____.
a. pupil
b. iris
c. lens
d. cornea
19. Which of the following terms is misspelled?
a. subcutaneous
b. rhytidoplasty
c. onychomycosis
d. hyperhidrosis
20. Which of the following abbreviations is a diagnostic test?
a. DXA
b. MD
c. IM
d. JRA
21. Which blood vessels have the thickest smooth muscle wall?
a. veins
b. capillaries
c. venules
d. arteries
22. Which of the following types of anemia results from the excessive loss of erythrocytes?
a. iron-deficiency anemia
b. hemolytic anemia
c. thalassemia
d. pernicious anemia
23. Which of the following terms means *nose discharge*?
a. rhinoplasty
b. rhinitis
c. rhinorrhagia
d. rhinorrhea
24. _____ is the blood type called the universal donor.
a. Type A
b. Type B
c. Type O
d. Type AB
25. The respiratory system, in conjunction with the cardiovascular system, delivers _____ to the cells of the body.
a. carbon dioxide
b. oxygen
c. nutrients
d. sodium

26. Which of the following bones is *not* part of the skull?
- a. hyoid
 - b. temporal
 - c. sphenoid
 - d. nasal
27. Synovial joints are enclosed by an elastic _____.
- a. joint capsule
 - b. cartilage
 - c. synovial membrane
 - d. ligament
28. Which of the following diagnostic procedures would identify achromatopsia?
- a. slit lamp microscopy
 - b. fluorescein angiography
 - c. visual acuity
 - d. color vision test
29. Which abbreviation stands for a surgical procedure?
- a. PRK
 - b. XT
 - c. Ophth
 - d. VA
30. Which of the following suffixes means narrowing?
- a. –rrhexis
 - b. –stenosis
 - c. –ptosis
 - d. –sclerosis
31. Which of the following hormones is responsible for the regulation of the menstrual cycle?
- a. growth hormone
 - b. progesterone
 - c. thyroxine
 - d. estrogen
32. Which type of seizure is also called a grand mal seizure?
- a. focal seizure
 - b. petit mal seizure
 - c. absence seizure
 - d. tonic-clonic seizure

33. Which of the following diagnostic procedures uses positively charge isotopes to image the brain's metabolically active tissues?
- a. nerve conduction velocity
 - b. lumbar puncture
 - c. positron emission tomography
 - d. cerebral angiography
34. Which of the following medications is used to treat minor pain?
- a. anesthetic
 - b. analgesic
 - c. dopaminergic drugs
 - d. hypnotic
35. Which of the following hormones is a gonadotropin?
- a. prolactin
 - b. follicle-stimulating hormone
 - c. thyroid-stimulating hormone
 - d. melanocyte-stimulating hormone
36. Which of the following terms means *excessive potassium in the blood*?
- a. hypercalcemia
 - b. hyponatremia
 - c. hyperkalemia
 - d. hypoglycemia
37. Which of the following is the longest period of gestation in which organs grow and mature?
- a. umbilical
 - b. embryonic
 - c. fetal
 - d. uterine
38. A term meaning *pertaining to the chest* is _____.
- a. thoracic
 - b. lumbar
 - c. crural
 - d. visceral
39. A _____ is the narrowing of a passageway in the urinary system.
- a. calculus
 - b. catheter
 - c. nephrolith
 - d. stricture

40. Which of the following medical terms is misspelled?
- cystorrhagia
 - ureteral
 - urinometer
 - urethral
41. A patient with nephrolithiasis is suffering from _____.
- cancer
 - stones
 - an inection
 - renal failure
42. _____ visualizes the bladder with X-rays after instilling dye directly into the bladder.
- Intravenous pyelogram
 - Cystoscopy
 - Excretory urography
 - Cystography
43. A _____ is a small tumor on a stem attachment.
- polyp
 - enture
 - pyrosis
 - melana
44. Which of the following procedures provides the patient with intravenous nutrition?
- lavage
 - nasogastric intubation
 - gavage
 - total parenteral nutrition
45. The stomach secretes _____.
- saliva
 - water
 - sulfuric acid
 - hydrochloric acid
46. The section of the pharynx associated with the mouth is the _____.
- oropharynx
 - hypopharynx
 - laryngopharynx
 - nasopharynx
47. Which medical term means *removal of gallbladder*?
- choledochectomy
 - cholelithiasis
 - cholecystectomy
 - cholelithectomy

48. Which layer of the heart is responsible for contracting to pump blood?
- a. pericardium
 - b. endocardium
 - c. myocardium
 - d. epicardium
49. Which of the following terms means a yellow *fatty deposit of lipids in an artery*?
- a. arterioma
 - b. stent
 - c. plaque
 - d. ischemia
50. Which of the following is a genetic condition in which the body is unable to make melanin?
- a. vitiligo
 - b. albinism
 - c. carbuncle
 - d. eczema
