

ADVANCED SPREADSHEET APPLICATIONS

(235)

STATE 2022

Production:

Job 1: Worksheets with answers and formulas	_____ (155 points)
Job 2: Formatting Worksheet	_____ (75 points)
Job 3: 3-D Pie Chart	_____ (60 points)
TOTAL POINTS	_____ (290 points)

Test Time: 90 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.
4. Put your Member ID and printout number in the right section of the footer on each printout unless instructed otherwise. Your name or initials should *not* appear on any work you submit.
5. If you finish before the end of the testing time, notify the proctor. Time may be a factor in determining the winner in the event of a tie.
6. When turning in your contest, the jobs should be arranged in printout order.

SCENARIO:

You work for Grove University in the Scholarship Department. Today your manager asked you to create a spreadsheet and chart showing 2022 scholarships university students earned. Then break down the information into a chart.

Job 1 (Worksheets with answers and formulas)	Points Possible	Points Earned
Member ID and Job # in right section of footer	10	
Calibri Size 11 font used for data	10	
Type in A1 "Grove University"	5	
Type in A2 "Scholarship Report"	5	
Information typed starting in A4 with Scholarship (-5 per typing error)	30	
In B31 a function that calculates the total monies that the college collected from all of the scholarships	5	
In C32 place a function that counts the number of female students that received scholarships	10	
In C33 place a function that counts the number of male students that received scholarships	10	
Type in A35 "Awards Breakdown", Bold the text	5	
Type in A36 "Scholarships less than \$5,000"	5	
Type in A37 "Scholarships \$5,000 to \$10,000"	5	
Type in A38 "Scholarships over \$10,000"	5	
In B36 place a function that sums the amount of scholarships that are less than \$5,000	10	
In B37 place a function that sums the amount of scholarships that are \$5,000 to \$10,000	10	
In B38 place a function that sums the amount of scholarships that are over \$10,000	10	
Print a copy of the worksheet with gridlines and adjust column widths to make all data visible on one page centered vertically and horizontally	10	
Print a copy of the worksheet with gridlines, adjust column widths to make all data visible and formulas showing on one page centered vertically and horizontally	10	
Subtotal	155	

Job 2 (Formatting worksheet)	Points Possible	Points Earned
Member ID and Job # in right section of footer	10	
Format the company name to Heading 2 cell style.	10	
Format the subtitle to 20% - Accent5 cell style.	5	
Merge and Center A1:F1, Merge and Center A2:F2, Center and Bold A4:F4	5	
Format column B to currency with zero decimals.	5	
Increase column width of all columns using auto fit.	5	
Center C5:C29	5	
Sort worksheet on School/Recipient column in alphabetical	10	
Select data and create a subtotal based on a count of how many scholarship payouts went to the school and how many went directly to the recipient	10	
Print out the formatted spreadsheet, one page centered vertically and horizontally	10	
Subtotal	75	

Job 3 (3-D Pie Chart)	Points Possible	Points Earned
Place chart on separate sheet	5	
Member ID and Job # in right section of footer	10	
Created a 3-D Pie Chart	5	
Quick Layout 5	5	
Make sure the title of the chart is "Scholarship Breakdown Based on Monetary Amounts"	5	
Title is Cooper Black font size 18	5	
Change chart colors to "Monochromatic Palette 3"	5	
Make sure there is no legend showing	5	
Place data callout labels	5	
Print out the formatted chart on one full page in black and white	10	
Subtotal	60	
TOTAL POINTS	290	

JOB 1: Create Spreadsheet with Formulas and Functions

1. Set the global options to include the following modifications: Calibri, 11pt, Landscape, Centered Horizontally and Vertically, Fit to One Page, and Narrow Margins.
2. Starting in cell A1 enter “Grove University”, A2 enter “Scholarship Report”
3. Starting at A4 with Scholarship, type the information in the image below:

Grove University					
Scholarship Report					
Scholarship	Award Amount	Gender	Grade Level	Full/Part	School/Recipient
AAF Tenth District	\$2,500	F	10	Full	School
Acton Behavior Center ABA Therapy	\$1,000	M	9	Full	Recipient
Against the Grain Artistic	\$1,000	F	10	Full	School
Andy and Julie Plata Honorary	\$2,000	F	11	Full	School
Asure Software Scholarship Program	\$2,500	M	9	Part	School
Avanti Senior Living's Inspirational	\$1,000	F	9	Full	School
BAFTX Graduate Award	\$4,500	F	Grad	Full	School
BHW Scholarship	\$3,000	F	10	Part	Recipient
Chef Curtis Duffy Scholarship Competition	\$2,500	M	9	Part	Recipient
Dan Klepper Memorial Scholarship	\$2,000	M	11	Full	Recipient
Dolores Zohrab Leibmann Fund	\$18,000	M	9	Full	School
ExxonMobil Bernard Harris Math and Science	\$5,000	F	9	Full	School
IFMA Foundation Scholarship Program	\$10,000	F	9	Full	School
Lily Pabilona Emerging Entrepreneur	\$5,000	M	9	Full	School
MBKSA Education Partnership	\$20,000	M	Grad	Full	School
Nelson Cabinetry Scholarship	\$1,500	M	9	Full	Recipient
Ruby's Rainbow	\$5,000	F	10	Full	Recipient
Sandy Schenker Capell	\$15,000	F	9	Full	School
Sheryl A. Horak Law Enforcement Explorer Memorial	\$1,000	F	9	Full	Recipient
The Craig & Galen Brown Foundation	\$3,000	M	9	Full	Recipient
The Robert Noyce	\$30,000	M	9	Full	School
The Terry Foundation	\$50,000	F	9	Full	School
The Whirlwind Steel Student	\$1,000	M	9	Full	Recipient
TVMA Scholarship	\$2,500	F	9	Full	Recipient
TSGC Columbia Crew Memorial Undergraduate	\$1,000	F	9	Full	Recipient
Total Monies Collected					
Female Scholarships					
Male Scholarships					

4. In B31, place a function that calculates the total monies that the college collected from all of the scholarships.
5. In C32 place a function that counts the number of female students that received scholarships.
6. In C33 place a function that counts the number of male students that received scholarships.
7. Type in A35 “Awards Breakdown”, bold the text.
8. Type in A36 “Scholarships less than \$5,000”
9. Type in A37 “Scholarships \$5,000 to \$10,000”
10. Type in A38 “Scholarships over \$10,000”
11. In B36 place a function that sums the amount of scholarships in the report that are monetarily less than \$5,000.

12. In B37 place a function that sums the amount of scholarships in the report that are monetarily \$5,000 to \$10,000.
13. In B38 place a function that sums the amount of scholarships in the report that are monetarily over \$10,000.
14. Print a copy of the worksheet with gridlines and adjust column widths to **make all data visible** on one page, centered vertically and horizontally.
15. Print a copy of the worksheet with gridlines, adjust column widths to make all data visible and **formulas showing**, on one page, centered vertically and horizontally.

JOB 2: Format the Spreadsheet using the following instructions:

1. Format the company name to Heading 2 cell style.
2. Format the subtitle to 20% - Accent5 cell style.
3. Merge and Center A1:F1, Merge and Center A2:F2, Center and Bold A4:F4
4. Format column B to currency with zero decimals.
5. Increase column width of all columns using auto fit.
6. Center C5:C29
7. Sort worksheet on School/Recipient column in alphabetical order.
8. Select data and create a subtotal based on a count of how many scholarship payouts went to the school and how many went directly to the recipient.
9. Print out the formatted spreadsheet, on one page, centered vertically and horizontally.

JOB 3: 3-D Pie Chart

Create a chart from the spreadsheet you created in Job 1. Move the chart to its own sheet. Format the chart to look like the following.

- Quick Layout 5
- Title chart “Scholarship Breakdown Based on Monetary Amounts”
- Title is Cooper Black font size 18
- Change chart colors to “Monochromatic Palette 3”
- Make sure there is no legend showing
- Place data callout labels
- Print out the formatted chart on one full page in black and white

You should have the following four printouts:

Job 1—Unformatted

Job 1—Formulas

Job 2—Formatted

Job 3—3-D Pie Chart
