APPLICATION:

During this exercise, you are only allowed to use Notepad. The use of any other type of text editor such as Notepad++ or web development tools such as Dreamweaver or Expression Web will result in immediate disqualification from this event.

A screen capture of the expected end result is included for your inspection to be used as a guide for completing this exercise.

When complete, print all code generated for this exercise (HTML and Style Sheet). Also print a screen capture of your finished work as it appears in the web browser so that it may be used for scoring purposes.

Submit all printed pages, along with your copy of this test and your answer form, to your proctor.

DIRECTIONS:

You have been asked to create a website using HTML5 and CSS. This site needs to look like the web page shown in the screen capture provided in this packet. Make sure it meets all the requirements below.

Overall Requirements:

1. The document must be a valid HTML5
2. The document must be styled with an external Cascading Style Sheet
 - a. All styles must be done with the style sheet. Using tags or style attributes within tags is PROHIBITED

General Page Requirements:

1. The head tag must have a meta element with the character set attribute with value of UTF-8.
2. The title should have *Home – Your Contestant Number*.
3. The background should be the color #FFF98D.
4. Look at the webpage screenshot as a reference of what the structure of the webpage should be.
 - a. Bakeology ~desserts for the soul ~ - use *bakeology logo.png*
 - b. Navigation – use nav tag
 - i. Home, About Us, Prices – use PNG files with the same names
 - ii. create a class for these images called navbutton
 - iii. make navbutton have a width of 150px
 - c. Create a div container for the following information
 - i. Welcome – h1
 - ii. Welcome to Bakeology! We are glad to serve you our delicious concoctions. We offer a wide variety of products including:
 - iii. bulleted list with the following:
 1. muffins
 2. cupcakes
 3. cake slices

4. mini-pies
 5. cheesecake
 6. brownies
 7. cookies
 - d. Create a footer container
 - i. image – flourish left.png
 - ii. image – flourish right.png
 - iii. Find us on social media! – h3
 - iv. bulleted list with the following:
 1. Facebook - /bakeology
 2. Twitter - @bakeology
 3. Instagram - @bakeology
 4. Link each item with the correct URL
 - a. www.facebook.com/bakeology
 - b. www.twitter.com/bakeology
 - c. www.instagram.com/bakeology
5. Create a CSS style sheet and link the stylesheet to your HTML page. Add the following styles.
 - a. To the body:
 - i. background color - #FFF98D
 - ii. center align text
 - iii. font family - Book Antiqua
 - iv. width – 1000px
 - v. top margin – 50px
 - vi. font color - #42210B
 - b. To the div:
 - i. background color - #FFFFFF
 - ii. padding – 15px
 - c. To the bulleted list in the div
 - i. Use the muffin.png picture for the bullets
 - ii. Use list style position with inside attribute
 - iii. Align text left
 - iv. Indent text at 40%
 - d. To the footer
 - i. Change the font size to 13px
 - ii. Background color - #FFFFFF
 - e. To the bulleted list in the footer
 - i. Remove the bullets from the items
 - f. To the hyperlinks
 - i. color - #42210B
 - g. To the nav
 - i. bottom margin – 25px
 - h. create a class called *center*
 - i. left margin – auto

- ii. right margin – auto
- iii. apply to body tag
- i. create an id called *left*
 - i. add float left attribute
 - ii. apply to the flourish left image
- j. create an id called *right*
 - i. add float right attribute
 - ii. apply to the flourish right image

When you are finished creating the website, print the code and the screen capture of the browser page. Turn in all printouts and your testing instructions to your proctor.
