a. hypersensitivity  
b. agreeable  
c. spectra  
d. pulmonary
19. Which of the following abbreviations is a surgical procedure?  
a. I&D  
b. MM  
c. SLE  
d. ID
20. Hair fibers are composed of \_\_\_\_\_.  
a. collagen  
b. lipocytes  
c. melanin  
d. keratin
21. Which of the following surgical procedures uses cold?  
a. electrocautery  
b. curettage  
c. cryosurgery  
d. debridement
22. Which of the following surgical procedures is used to remove acne scars and tattoos?  
a. dermatoplasty  
b. dermabrasion  
c. cryosurgery  
d. cauterization

23. In exfoliative cytology, the cells for examination are obtained by \_\_\_\_\_.  
a. needle  
b. syringe  
c. scraping  
d. incision
24. Which of the following is the *most* superficial layer of skin?  
a. dermis  
b. subcutaneous layer  
c. epidermis  
d. corium
25. Which of the following surgical procedures is the removal of dead or damaged tissue from a wound?  
a. cauterization  
b. debridement  
c. electrocautery  
d. cryosurgery

- a. carotid artery
  - b. pulmonary artery
  - c. aorta
  - d. vena cava
43. Which of the following is also known as the pacemaker of the heart?
- a. sinoatrial node
  - b. atrioventricular bundle
  - c. atrioventricular node
  - d. Purkinje fibers
44. Which of the following surgical procedures uses a blood vessel obtained from another part of the body?
- a. arterial anastomosis
  - b. intracoronary artery stent
  - c. coronary artery bypass graft
  - d. aneurysmectomy

45. Which of the following abbreviations is a test to assist in the diagnosis of autoimmune diseases?
- a. ANA
  - b. PA
  - c. HGB
  - d. RBC
46. Which of the following is not an inherited condition?
- a. sickle cell anemia
  - b. hemophilia
  - c. thalassemia
  - d. leukemia
47. Which of the following is a life-threatening allergic reaction?
- a. anaphylactic shock
  - b. AIDS-related complex
  - c. sarcoidosis
  - d. elephantiasis
48. Which of the following terms means *excessive (deep) breathing*?
- a. orthopnea
  - b. hyperpnea
  - c. hypopnea
  - d. tachypnea
49. Which kind of medication is suspended in a mist to be inhaled?
- a. endotracheal medications
  - b. postural drainage
  - c. aerosol therapy
  - d. pulmonary medications
50. Which of the following conditions may cause an infarct in the lungs?
- a. pulmonary emboli
  - b. pneumonia
  - c. pulmonary edema
  - d. pulmonary fibrosis
