NATIONAL FINAL SCENARIO:

Ashley and Sean both work as social media analysts for Digital Solutions. Sean is not very active on his personal social media accounts, and Ashley, who is only two years out of college, has been encouraging him to step it up. She takes selfies at work with Sean in the background, and he usually doesn't even notice. As Sean was doing his usual once-a-month social media check-in on his social media feed, he saw several pictures of himself on Ashley's account in the background of her selfies. Additionally, Ashley posted pictures of herself with illegal substances in her hand that appear to have been taken during the workday. Ashley's social media presence has become an issue as she frequently returns late from lunch breaks and arrives late to meetings because she is interacting on her personal social media accounts.

Sean is not comfortable with his pictures being posted on social media, and he is concerned about getting in trouble for taking pictures at work. Sean also does not want to be associated with the illegal use of drugs. He asks Ashley to remove the pictures, but she laughs him off stating, "Don't be so dramatic." Since Sean wants to be transparent with his boss, he reports that he wasn't aware the pictures were being posted. His boss told him to file a report with the human resources department.

As the Human Resources Manager, how would you handle these issues? In your solution, include recommendations using your *Human Resources Manual* as a guide.
