40 @ 2 points each _____ (80 points)

PRODUCTION

Job 1: HPIP Medical Transcription Form _____ (100 points)

Job 2: SOAP Medical Transcription Form _____ (100 points)

TOTAL POINTS _____ ***(280 points)***

Test Time: 60 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
2. Electronic devices will be monitored according to ACT standards.

EXAM GUIDELINES:

1. Ensure this test booklet contains Jobs 1-2.
2. Key all jobs according to the instructions given.
3. Correct any and all formatting, spelling or grammar errors. Use the formatting guide in the *Style & Reference Manual*.
4. Your name or initials should *not* appear on any work you submit. Use your contestant number on any occasion you would normally key your reference initials.
5. In the lower **right**-hand corner of ALL work submitted (unless otherwise specified) key your contestant number and job number.
6. If you complete the event before the end of the time allotted, notify the proctor. Time could be considered a factor in determining a winner when there is a tie score.
7. The test is divided into two parts, and you **MUST** complete both parts.

PART ONE Instructions: Concept Knowledge

1. Open Google Chrome and navigate to compete.bpa.org.
2. Click on the appropriate Division (Secondary or Post-Secondary) Competitions button.
3. Enter your BPA Member ID (8-digits) and Password to access your test questions.
4. Answer all questions and submit your test.
5. Move on to Part Two.

PART TWO Instructions: Production

All competition materials (including project files, completed job, etc.) must be submitted through the National BPA Pre-submit System (presubmit.bpa.org).

D. all of the answers are correct

Job 1: HPIP Transcription

Directions: Below is a patient note from Dr. Nora Baker. Transcribe the note into HPIP format. Use yesterday as the date of exam and dictation. Use today as the date of recorded transcription. Use your contestant number where you would key your initials.

Patient Name: Andrew Wilson
Date of Birth: 6/18/1972
Primary Care Physician: Dr. Foster
Sex: Male

History: Patient is a 49-year-old male who went skiing on January 1, 2021 and fell, twisting his left knee.

Medications: Patient is currently taking Ibuprofen 400 mg QID as needed for pain. He also takes metoprolol 50 mg PO BID.

Exam: BP 128/72, HR 62 bpm, and RR 14 breaths/minute. Left knee is tender to the touch with swelling. All other systems negative.

Impression: Suspected left knee meniscus tear.

Plan: MRI ordered. Instructed patient to follow-up in the office within two weeks after MRI is complete.

Job 2: SOAP Transcription

Directions: Below is a dictated note from Dr. Bob Smith. Transcribe the note into SOAP format. Use yesterday as the date of exam and dictation. Use today as the date of recorded transcription. Use your contestant number where you would key your initials.

Patient Name: John Walker
Date of Birth: 5/24/1992
PCP: Dr. Doyle
Sex: Male

Subjective findings: Patient is a 29-year-old male who complains of pain in the right ring finger. He states he was working outside and cut is finger on a tree branch.

Objective findings: BP 124/80, HR 64 bpm, RR 12 breaths/minute

Assessment: 1. Right ring finger pain 2. Right ring finger swelling and redness 3. Decreased mobility in right hand

Plan: Amoxicillin 250 mg PO TID, apply Xeroform dressing to right ring finger
