

Member ID: _____

Time: _____

Rank: _____

INTEGRATED OFFICE APPLICATIONS (215)

STATE 2023

Production:

Job 1: Database _____ (100 points)

Job 2: Spreadsheet _____ (250 points)

Job 3: Mail Merge Letter _____ (200 points)

TOTAL POINTS _____ **(550 points)**

Test Time: 90 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any. Failure to do so will result in disqualification.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

EXAM GUIDELINES:

1. Ensure this test booklet contains Jobs 1-3.
2. Key all jobs according to the instructions given.
3. Correct any and all formatting, spelling or grammar errors. Use the formatting guide in the *Style & Reference Manual*.
4. Your name or initials should *not* appear on any work you submit. Use your Member ID in any occasion you would normally key your reference initials.
5. In the lower **right** hand corner of ALL work submitted (unless otherwise specified), key your Member ID and job number.
6. If you complete the event before the end of the time allotted, notify the proctor. Time may be considered a factor in determining a winner when there is a tie score.
7. Place your scoring sheet on top of your jobs. Jobs should be placed in numerical order.

PRODUCTION STANDARDS	
0 Errors	100 Points
1 Error	90 Points
2 Errors	70 Points
3 Errors	50 Points
4+ Errors	0 Points

Job 3 Total	200	
TOTAL	550	

You have been hired as a Computer Applications Specialist at Digital Solutions. Nancy Wells, Chief Executive Officer of Digital Solutions, would like you to prepare several different documents. Please follow the *Style & Reference Manual* for formatting.

Job 1: Database

1. Create a table to show the Department Head information named **Department – XXXXX**. Use appropriate field names, types, and other properties considering the data provided. Department ID is the primary key.
2. Enter the following information.

Department ID	Department	Title	First Name	Last Name	Mailing Address	City	State	Zip
AS100	Administrative Support	Ms.	Edna	Renick	850 Twin Rivers Dr	Columbus	OH	43004
FS200	Financial Services	Mr.	Harvey	Rosen	1391 Grandview Ave	Columbus	OH	43085
HR300	Human Resources	Ms.	Julie	Smith	234 W 18th Ave	Columbus	OH	43201
IT400	Information Technology	Mr.	Tom	Carlson	1981 Cleveland Ave	Columbus	OH	43205
M500	Marketing	Ms.	Roger	Meyer	281 W Lane Ave	Columbus	OH	43212

3. Create a table to show the Starting Wage information named **Starting Wages – XXXXX**. Use appropriate field names, types, and other properties considering the data provided. Job ID is the primary key.
4. Enter the following information.

Department ID	Job ID	Job Title	Starting Wage
AS100	AS101	Information Processing Specialist	24.75
AS100	AS102	Computer Applications Specialist	22.75
AS100	AS103	Legal Research Assistant	14.75
AS100	AS104	Management Assistant	15.75
FS200	FS201	Payroll Clerk	12.75
FS200	FS202	Accounting Clerk	13.50
FS200	FS203	Accountant	23.75
FS200	FS204	Financial Analyst	23.50
HR300	HR301	Medical Support Assistant	14.75
HR300	HR302	Insurance Benefits Clerk	18.75
HR300	HR303	Wellness Coordinator	21.50
HR300	HR304	Payroll Specialist	22.50
IT400	IT401	Database Specialist	22.50
IT400	IT402	Programmer	24.50
IT400	IT403	Software Engineer	26.75
IT400	IT404	PC Servicing/Troubleshooting	15.50
M500	M501	Desktop Publisher	17.50
M500	M502	Graphic Design Assistant	12.50
M500	M503	Website Liaison	19.75
M500	M504	Research Assistant	12.75

Job 1: Database (continued)

5. Create a relationship that will match the data in both tables.
6. Create a query the calculates the average starting wage for each department. The query should include two fields: Department and Average Starting Wage. Name the query **Average Starting Wage Query - XXXXX**. Sort the query so that the highest average salary is listed first.
7. Print the query. Make sure all information is shown.

Job 2: Spreadsheet

Ms. Wells would like you to manipulate the data you entered in Job 1 in a spreadsheet.

1. Export the Starting Wages – XXXXX table into a spreadsheet.
2. Insert five (5) blank rows above the data in the table for a heading.
3. Merge and center cells A1:E3. Once merged, change the font size to 36 point and bold. Enter the title: Digital Solutions Payroll
4. Merge and center cells F1:G1. Once merged, bold the font and enter: Payroll Tax Rate
5. Enter the following information in each cell and format as directed:
 - a. F2: < \$1,500
 - b. F3: >= \$1,500
 - i. Cells F2 and F3: Align right
 - c. G2: 12%
 - d. G3: 15%
 - i. Cells G2 & G3: Align center and apply Percentage style with no decimals
6. Leave row four (4) blank
7. Merge and center cells E5:G5. Format as bold and shaded (grey). Add All Borders to the merged cell. Enter the heading: Bi-Weekly
8. All column headings in Row Six (6) should be centered, bold, and shaded (grey).
9. In cell E6, enter the column heading: Payroll. In that column, create a formula that will calculate the bi-weekly payroll for each starting wage. (Use a 40 hour work week)
10. In cell F6, enter the column heading: Tax. In that column, create an 'IF' function that calculates the payroll tax based on the information shown in cells F2:G3. (Use absolute cell reference)
11. In cell G6, enter the column heading: Net pay. In that column, calculate the net pay.
12. In cell F27, enter the row heading: Total Payroll (Format: Align Right and Bold)
13. In cell G27, calculate the total Net Pay. (Format: Bold and Currency style)
14. In cells A6:G26, format with All Borders.
15. In cells D7:G7, format as Currency.
16. In cells D8:G26, format as Comma style.
17. In cells A7:C26, format as Align Left.
18. Enter your Member ID# and Job# in the right footer.
19. Print as landscape orientation, fit to one page, and center horizontally.
20. Print with formulas. (Show gridlines, column, and row headings, fit to one page, and make sure all formulas are showing.)

Job 3: Mail Merge Letter

Ms. Wells would like you to key the following Mail Merge Letter using your *Style & Reference Manual*. The letter will be addressed to all of the different department chairs. You can find their names and addresses in the database you created in Job 1. Ms. Wells would like you supply an appropriate subject for the letter.

Body of Letter:

It is time to start the yearly process of evaluating our starting salaries at Digital Solutions. We want to make certain that our starting salaries are competitive amongst other similar businesses in our industry. We consider ourselves to be the leader in developing and selling software, hardware, and services. We must make sure our starting salary encourages the best in the industry to apply.

Please look over the enclosed Digital Solutions Payroll spreadsheet. As the director of the «Department» department, we need your input. Please compare your department starting salaries to all the other departments. If you feel that any of your starting salaries are not competitive, please let us know immediately.

«First_Name», thank you for all that you do at Digital Solutions. We appreciate you taking the time to research and determine the starting salaries that will help Digital Solutions recruit the best in the industry.

You will print the letter as follows:

- Print the form letter with the merge codes showing
- Print the merged letter to Julie Smith and Harvey Rosen
- Place your Member ID# and Job # in the right footer on all printouts
