NETWORK DESIGN TEAM

(325)

STATE 2023

Description

Analyze existing and planned business environments and develop a strategy for the implementation of a network infrastructure that addresses the business needs of the scenario provided.

Topic

State Preliminary Competition Change

Tech Stadium has become aware they need wireless network access for parking attendants and their facilities. Provide a wireless solution without comprising the in-house stadium network to provide network resources to those in the parking lot and parking facilities.

State Finals Competition Change

Additionally, security is of the utmost importance. Keeping the public and workers safe is a #1 priority of Tech Stadium. It has been requested that Tech Stadium provide a solution for security cameras throughout the stadium.
