TOTAL POINTS

_____ **100 Points**

Test Time: 60 minutes

MULTIPLE CHOICE

Identify the letter that best completes each sentence or answers the question.

1. What is the key principle to keep in mind when using visual effects in a video production?
 - a. More effects mean a better video
 - b. Visual effects should be used sparingly and purposefully
 - c. Complex effects should always be used for a professional look
 - d. Visual effects are unnecessary in a video production
2. Which of the following is an example of a proper use of visual effects in video production?
 - a. Adding excessive lens flares to every shot
 - b. Applying multiple filters and distortions to the entire video
 - c. Using visual effects to enhance the storytelling or highlight key moments
 - d. Adding random animations and graphics throughout the video
3. Which of the following statements about titles, lower thirds, and visual effects is true?
 - a. Titles and lower thirds should always have flashy animations and complex designs
 - b. Visual effects should be used excessively to compensate for a lack of content
 - c. Titles and lower thirds should align with the overall visual style and theme of the video
 - d. Visual effects are only necessary for high-budget professional productions
4. What is the recommended duration for a title or lower third in a video?
 - a. 2-3 seconds
 - b. 5-7 seconds
 - c. 10-12 seconds
 - d. 15-20 seconds
5. What is the primary purpose of copyright law?
 - a. To protect the financial interests of creators
 - b. To ensure fair use of creative works
 - c. To encourage the creation of new works
 - d. To restrict access to intellectual property
6. Which lighting technique is commonly used in portrait photography to create a small, triangular catchlight in the subject's eyes?
 - a. Split lighting
 - b. Loop lighting
 - c. Rembrandt lighting
 - d. Butterfly lighting

7. What is the purpose of a diffuser in photography lighting?
 - a. To reflect light onto the subject
 - b. To control the direction of light
 - c. To soften and scatter light
 - d. To create a dramatic shadow effect
8. Which lighting technique creates a strong, defined shadow under the subject's nose?
 - a. Split lighting
 - b. Rembrandt lighting
 - c. Butterfly lighting
 - d. Broad lighting
9. What is the term for the gradual transition from light to shadow in a photograph?
 - a. Exposure
 - b. Contrast
 - c. Gradation
 - d. Saturation
10. Which lighting technique involves placing a light source behind the subject to create a glowing outline?
 - a. Rim lighting
 - b. Side lighting
 - c. Fill lighting
 - d. Key lighting
11. Which audio format provides the highest quality and is commonly used for professional music production?
 - a. MP3
 - b. AAC
 - c. WAV
 - d. OGG
12. Which term describes the time it takes for a sound to decay to inaudible levels?
 - a. Pitch
 - b. Reverb
 - c. Attack
 - d. Release
13. Which audio effect creates the perception of sounds moving from one ear to another?
 - a. Flanger
 - b. Phaser
 - c. Panorama
 - d. Tremolo

14. Which audio technique is used to smooth out sudden changes in volume?
 - a. Compression
 - b. Distortion
 - c. Chorus
 - d. Amplification
15. What is the purpose of a pop filter in audio recording?
 - a. To remove low-frequency rumble from recordings
 - b. To prevent sibilance and plosive sounds from distorting the microphone
 - c. To create stereo width and depth in the mix
 - d. To apply creative filtering effects to the sound
16. What is the purpose of the "squash and stretch" principle in animation?
 - a. To give characters a solid weight and mass
 - b. To add realistic lighting effects
 - c. To create fluid motion in character movements
 - d. To generate complex particle simulations
17. What is the role of a rig in 3D animation?
 - a. Texturing and shading objects
 - b. Simulating realistic physics interactions
 - c. Creating skeletal structures for character animation
 - d. Rendering the final animation frames
18. Which lighting technique simulates the behavior of light in the real world by tracing rays of light?
 - a. Ambient occlusion
 - b. Global illumination
 - c. Cel shading
 - d. Normal mapping
19. What does the term "rendering" refer to in 3D animation?
 - a. Creating a wireframe model
 - b. Applying textures to a 3D object
 - c. Calculating the final images or frames of an animation
 - d. Generating motion paths for camera movements
20. Which technique allows animators to create the illusion of fluid or organic motion by interpolating between keyframes?
 - a. Inverse kinematics
 - b. Morph targets
 - c. Forward kinematics
 - d. Tweening

21. What is the purpose of a storyboard in 3D animation?
 - a. To create a detailed script for the animation
 - b. To plan and visualize the sequence of shots in the animation
 - c. To apply textures and materials to 3D objects
 - d. To control the timing and pacing of the animation
22. What does the "cutaway" editing technique involve?
 - a. Removing unwanted footage from a video clip
 - b. Simultaneously displaying multiple video clips on the screen
 - c. Creating a transition between two video clips using a cut
 - d. Inserting a related shot or footage between two main shots
23. Which transition is used to divide a video clip into two distinct halves with a visible line in the middle?
 - a. Center split
 - b. Split screen
 - c. Divided cut
 - d. Dual clip
24. What does the "crossfade" transition do?
 - a. Blends the audio from one clip into the audio of the next clip
 - b. Fades the video from one clip into the video of the next clip
 - c. Creates a flash or strobe effect between two clips
 - d. Flips the image horizontally or vertically between two clips
25. Which editing technique involves cutting out portions of a video clip to remove unnecessary or unwanted content?
 - a. Trimming
 - b. Splitting
 - c. Looping
 - d. Duplicating
26. What does the "pan and zoom" technique involve?
 - a. Moving the camera from one side to another to follow the subject
 - b. Creating a zooming effect in post-production to emphasize a specific part of the video
 - c. Blurring the background while keeping the subject in focus
 - d. Flipping the video horizontally or vertically to create a mirror effect
27. Which attribute specifies the alternative text for an image in HTML?
 - a. src
 - b. alt
 - c. title
 - d. image

28. Which tag is used to define a hyperlink in HTML?
- `<url>`
 - `<link>`
 - `<a>`
 - `<href>`
29. What is the correct HTML tag for the largest heading?
- `<h1>`
 - `<h4>`
 - `<heading>`
 - `<h6>`
30. Which HTML attribute is used to specify the URL of a linked resource?
- Link
 - url
 - href
 - src
31. Which tag is used to define a table in HTML?
- `<table>`
 - `<tr>`
 - `<td>`
 - `<th>`
32. What is the purpose of the `<div>` tag in HTML?
- To create a hyperlink
 - To define a paragraph
 - To group and style elements
 - To insert an image
33. Which color scheme consists of colors that are adjacent to each other on the color wheel?
- Complementary
 - Monochromatic
 - Analogous
 - Triadic
34. What does the term "white space" refer to in graphic design?
- Blank areas in a design composition
 - The absence of color in a design
 - A design with a predominantly white color palette
 - The space between letters in typography
35. Which of the following is NOT a type of typography alignment?
- Left alignment
 - Center alignment
 - Justified alignment
 - Diagonal alignment

36. What is the purpose of hierarchy in graphic design?
- To create a sense of unity and balance
 - To establish a clear visual order and emphasize important elements
 - To add complexity and visual interest
 - To eliminate negative space
37. What is the "golden ratio" in graphic design?
- A proportion that is visually pleasing and harmonious
 - A technique to create 3D effects in designs
 - A color scheme based on metallic shades
 - A rule for aligning elements along a grid
38. Which file format is best for preserving image quality and supporting transparency in graphic design?
- JPEG
 - PNG
 - GIF
 - TIFF
39. What is the purpose of contrast in graphic design?
- To make text more readable
 - To create a sense of depth and dimension
 - To establish a visual hierarchy
 - All of the above
40. What is the purpose of a copyright notice?
- To indicate that a work is in the public domain
 - To provide information about the author of a work
 - To prevent others from using a copyrighted work
 - To secure copyright protection for a work
41. Which of the following does NOT require permission from the copyright owner?
- Creating a parody of a copyrighted song
 - Reproducing a copyrighted photograph for personal use
 - Translating a copyrighted book into another language
 - Publicly performing a copyrighted play
42. What is the "first sale doctrine" in copyright law?
- The right of copyright owners to sell their works to the highest bidder
 - The right of consumers to make unauthorized copies of copyrighted material for personal use
 - The right of copyright owners to control the distribution of their works after the initial sale
 - The right of consumers to resell or dispose of lawfully acquired copyrighted works

43. Which international treaty provides a framework for copyright protection among member countries?
- Universal Copyright Convention (UCC)
 - World Intellectual Property Organization (WIPO) Copyright Treaty
 - Berne Convention for the Protection of Literary and Artistic Works
 - Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement
44. Which of the following is NOT an exclusive right granted to copyright owners?
- The right to reproduce the work
 - The right to distribute copies of the work
 - The right to perform the work publicly
 - The right to claim authorship of the work
45. What is the duration of copyright protection for works created by an individual author?
- 50 years
 - 70 years
 - Lifetime of the author plus 50 years
 - Lifetime of the author plus 70 years
46. Which Supreme Court case is often cited for first recognizing students' freedom of speech rights?
- Hazelwood vs Kuhlmeier
 - Texas vs Johnson
 - Tinker vs Des Moines
 - Brandenburg vs Ohio
47. What is the term for the process of selecting and arranging content for a broadcast?
- Programming
 - Editing
 - Production
 - Streaming
48. Which of the following is a common method for monetizing broadcasting content.
- Subscription fees
 - Advertising
 - Merchandise sales
 - All of the above
49. Which broadcasting technology uses electromagnetic waves to transmit audio and video signals?
- Cable TV
 - Satellite TV
 - Internet TV
 - Terrestrial TV

50. What is the term for a short, recorded segment that is played during a broadcast?

- a. Clip
- b. Episode
- c. Segment
- d. Reel
