Brave Families was founded in 2012 by Sheri Baker on the belief that it takes both a supportive family and community to help children see past their fears, anxiety, medications, treatments, and pain. The goal of Brave Families is to help mitigate the negative effects of stress on a child's growth and development, both mentally and physically.

Brave Families plans fun activities and events for the Columbus, Ohio area children with life-threatening medical conditions and their families to provide positive distraction, family bonding, and emotional support for the whole family. Sheri Baker said "it has been our privilege to serve these remarkable children and their families over the past several years. As we inspire hope and help kids cope, we are excited to move forward with the continued support of our communities in Columbus and surrounding communities.

Digital Solutions supports the idea of giving back to the community in a big way, and this is a great way to offer employees of DS an opportunity to participate in a worthy and important cause.
