DATE: Today’s date

SUBJECT: Possible Expansion Cities

After several months of research and deliberation, we have decided to inform department heads here at Digital Solutions which cities we are considering for our possible satellite expansion.

As you can see from the table below, we looked at numerous factors to help us determine which areas would be the best fit for our company. Currently, we have narrowed our search down to the following cities based on metro population, median home price, and average annual salary.

City	State	Metro Population	Median Home Price	Average Annual Salary
Sarasota	FL	821,613	\$387,630	\$48,180
Green Bay	WI	320,827	181,700	50,020
Fayetteville	AK	526,101	203,150	50,470
Colorado Springs	CO	735,480	455,371	55,540
Portland	ME	536,314	310,300	55,790
Huntsville	AL	464,607	192,667	58,730
Raleigh	NC	1,999,253	369,707	59,174
Boulder	CO	324,682	528,833	70,450
San Francisco	CA	4,709,220	1,047,714	81,840
San Jose	CA	1,985,926	1,302,118	93,450
Total Average Annual Salary				\$62,364.40

We are looking for feedback from department heads on any other factors we should now consider that would narrow this list down to less than five by January 2. Please email me any questions you have or elements that need to be ruminated so that I can share them with our entire team.
