NETWORK DESIGN TEAM

(325)

FINALS 2024

Description

Analyze existing and planned business environments and develop a strategy for the implementation of a network infrastructure that addresses the business needs of the scenario provided. At state and national level, teams will be presented with an additional element to the scenario that requires revision of their final presentation.

Topic

Current business subscribers are unhappy with their dated copper PSTN lines supplying service to their landline telephones. In addition, the local telephone company is not repairing broken copper lines forcing their customers to use cell phones. This is not practical for some. As a WISP, a value-added service is to provide VOIP telephone service. VOIP rollout will take some time. Today the CEO wants a planned network segment and be provisioned to account for the additional demand on the network logically. The full rollout of VOIP deployment will come later for the company.

JUDGING PROCEDURE

- As a team of judges, formulate two to three questions to ask at the conclusion of the presentation. Be sure to ask the same questions of each team.
- No more than three (3) minutes for set-up.
- The length of the presentation will be no more than ten (10) minutes; followed by judges' questions not to exceed ten (10) minutes.
- The presentation will be stopped at ten (10) minutes.
- Excuse teams upon completion of judges' questions.
- **There can be no ties in the top ten (10) teams.** It is the responsibility of the judges to break any ties.
- Administrator will fill out ranking sheet prior to dismissing the judges.
- If more than one (1) section is necessary, finalists will be determined by selecting an equal number from each section.
- Give administrator all Judges' Rating Sheets, Judge Evaluation Sheets and contest materials.
- No audience is allowed in the contest room.

Please double-check and verify all scores!
