

DO NOT WRITE ON TEST

**DIGITAL
COMMUNICATION &
DESIGN CONCEPTS
~OPEN EVENT~**

(490)

STATE 2024

TOTAL POINTS _____ **100 Points**

Test Time: 60 minutes

MULTIPLE CHOICE

Identify the letter that best completes each sentence or answers the question.

1. Which broadcasting format allows viewers to pause, rewind, or fast-forward through content?
 - A. Live broadcasting
 - B. Analog broadcasting
 - C. Digital broadcasting
 - D. On-demand broadcasting
2. What is the term used for the process of sending audio or video content over the internet in real-time?
 - A. Streaming
 - B. Recording
 - C. Encoding
 - D. Downloading
3. Which of the following camera accessories is used to reduce the amount of light entering the lens?
 - A. Tripod
 - B. Lens hood
 - C. Filter
 - D. External flash
4. What is the purpose of the camera's histogram display?
 - A. To show the number of photos taken
 - B. To display the camera's battery level
 - C. To provide a visual representation of the image's tonal range
 - D. To adjust the camera's white balance
5. Which of the following camera modes gives the photographer full control over all exposure settings?
 - A. Auto mode
 - B. Manual mode
 - C. Program mode
 - D. Aperture priority mode
6. What is the purpose of the camera's autofocus feature?
 - A. To adjust the exposure settings automatically
 - B. To stabilize the image
 - C. To control the shutter speed
 - D. To achieve sharp focus on the subject

7. What is the "rule of thirds" in photography?
 - A. A guideline for composing images by dividing the frame into nine equal parts
 - B. A technique for capturing action shots
 - C. A method for adjusting the camera's white balance
 - D. A rule that governs the use of flash in photography
8. Which of the following camera accessories is used to stabilize the camera while shooting?
 - A. Tripod
 - B. Lens Hood
 - C. Filter
 - D. External Flash
9. Which term refers to a ligature that combines the letters "f" and "i"?
 - A. Ampersand
 - B. Tittle
 - C. Diphthong
 - D. Fi ligature
10. Which of the following describes the intentional uneven spacing between characters?
 - A. Justification
 - B. Kerning
 - C. Tracking
 - D. Optical alignment
11. What is the term for the height of lowercase letters, excluding ascenders and descenders?
 - A. X-height
 - B. Cap height
 - C. Baseline
 - D. Stem height
12. Which term describes the decorative extension at the end of a stroke in a letterform?
 - A. Swash
 - B. Ascender
 - C. Ligature
 - D. X-height
13. What is the term for the horizontal line that appears in uppercase "E" and "F"?
 - A. Crossbar
 - B. Descender
 - C. Ligature
 - D. Spur

14. Which of the following refers to the main vertical stroke in uppercase letters?
 - A. Serif
 - B. Baseline
 - C. Counter
 - D. Stem
15. Which of the following refers to the vertical spacing between lines of text?
 - A. Kerning
 - B. Tracking
 - C. Leading
 - D. Ascender
16. Which file format is commonly used for saving tone-mapped images in Photoshop?
 - A. JPEG
 - B. GIF
 - C. PNG
 - D. TIFF
17. What is the purpose of tone mapping in HDR photography?
 - A. To correct lens distortions in the image
 - B. To reduce noise and artifacts in the image
 - C. To merge multiple exposures into a single image
 - D. To enhance the dynamic range of an image
18. What does the tone mapping operator in Photoshop allow you to control?
 - A. Saturation levels in an image
 - B. Hue and color balance of an image
 - C. Overall exposure and contrast of an image
 - D. Image resolution and size
19. Which tool in Photoshop is commonly used for tone mapping?
 - A. Gradient Tool
 - B. Clone Stamp Tool
 - C. Levels Adjustment Tool
 - D. Magic Wand Tool
20. What is tone mapping in Photoshop?
 - A. The process of adjusting the overall brightness and contrast of an image
 - B. The technique used to change the colors of an image
 - C. The method of adding text and graphics to an image
 - D. The process of resizing an image to a different resolution

21. Which of the following is NOT protected by copyright law?
- A. A novel
 - B. A painting
 - C. A slogan
 - D. A musical composition
22. Which of the following is a fundamental principle of graphic design?
- A. Repetition
 - B. Randomness
 - C. Complexity
 - D. Disorganization
23. What is the purpose of the "rule of thirds" in graphic design?
- A. To divide a layout into equal sections
 - B. To create balance and visual interest
 - C. To ensure all elements are centered
 - D. To eliminate negative space
24. Which tag is used to define the root element of an HTML document?
- A. <head>
 - B. <body>
 - C. <html>
 - D. <title>
25. What is the correct HTML tag for inserting a line break?
- A.

 - B. <lb>
 - C. <break>
 - D. <line>
26. Which attribute is used to define inline styles in HTML?
- A. Class
 - B. Id
 - C. Style
 - D. Inline
27. Which tag is used to create a numbered list in HTML?
- A.
 - B.
 - C.
 - D. <dl>

28. Which transition is commonly used to create a smooth dissolve effect between two video clips?
- A. Fade
 - B. Cut
 - C. Swipe
 - D. Wipe
29. Which editing technique is used to speed up a video clip?
- A. Slow motion
 - B. Reverse motion
 - C. Jump cut
 - D. Time-lapse
30. Which transition creates a flipping or rotating effect to transition between video clips?
- A. Flip
 - B. Roll
 - C. Spin
 - D. Twist
31. Which transition is commonly used to create a horizontal or vertical sliding effect between two video clips?
- A. Slide
 - B. Push
 - C. Swipe
 - D. Glide
32. What does the "reverse motion" technique involve?
- A. Playing a video clip backward
 - B. Changing the speed of a video clip gradually over time
 - C. Overlaying a transparent video clip on top of another clip
 - D. Creating a rapid sequence of images to convey a sense of urgency
33. Which of the following describes keyframe animation?
- A. Animating using a skeleton rig
 - B. Creating motion by defining specific frames
 - C. Simulating physics-based movement
 - D. Generating procedural animations
34. What is the purpose of a UV map in 3D animation?
- A. Controlling the lighting in a scene
 - B. Defining the colors and textures on a 3D model
 - C. Calculating the physics simulations accurately
 - D. Creating particle effects in animations

35. Which file format is acceptable when completing a UV map in 3D animation?
- A. MOV
 - B. PDF
 - C. PNG
 - D. AUD
36. What is the unit of measurement for sound frequency?
- A. Decibel (dB)
 - B. Hertz (Hz)
 - C. Watt (W)
 - D. Kilohertz (kHz)
37. Which of the following terms refers to the perceived quality or character of a sound?
- A. Volume
 - B. Pitch
 - C. Timbre
 - D. Amplitude
38. What does the term "bit depth" refer to in digital audio?
- A. The number of audio channels in a recording
 - B. The duration of an audio sample
 - C. The amount of data used to represent each sample
 - D. The frequency range of a sound waveform
39. Which audio effect is commonly used to reduce background noise in recordings?
- A. Reverb
 - B. Delay
 - C. Compression
 - D. Noise gate
40. What is the purpose of an equalizer (EQ) in audio production?
- A. Adjusting the overall volume of a recording
 - B. Adding special effects to the sound
 - C. Balancing the frequency content of a sound
 - D. Controlling the stereo width of a mix
41. Which type of lighting creates soft, diffused light with gentle shadows?
- A. Hard light
 - B. Soft light
 - C. Directional light
 - D. Ambient light
42. What is the purpose of a reflector in photography lighting?
- A. To block unwanted light
 - B. To provide a main light source
 - C. To add color effects to the scene
 - D. To bounce and redirect light onto the subject

43. What is the effect of using a narrow aperture (high f-number) in photography?
- A. More light is allowed into the camera
 - B. A shallow depth of field is achieved
 - C. A wider field of view is captured
 - D. More motion blur is introduced into the image
44. What is the purpose of a snoot in photography lighting?
- A. To soften and diffuse light
 - B. To create a spotlight effect
 - C. To provide a fill light
 - D. To create a rim light effect
45. What is the term for the technique of using multiple light sources to illuminate a subject from different angles?
- A. Rembrandt lighting
 - B. Butterfly lighting
 - C. Three-point lighting
 - D. High-key lighting
46. What is the primary purpose of a title in video production?
- A. To provide a brief summary of the video content
 - B. To display the names of the actors and crew members
 - C. To introduce a new section or topic in the video
 - D. To showcase visually appealing graphics
47. What is the lower third in video production?
- A. The bottom third of the screen where captions or subtitles are displayed
 - B. The portion of the video that is lower in resolution than the rest
 - C. The area where the video transitions to a new scene or shot
 - D. The closing credits at the end of the video
48. Which font style is generally recommended for titles and lower thirds in video productions?
- A. Serif fonts
 - B. Script fonts
 - C. Bold and heavy fonts
 - D. Simple and readable fonts
49. What is the primary purpose of visual effects in a video production?
- A. To make the video more entertaining and visually appealing
 - B. To add complexity and sophistication to the video
 - C. To distract the viewers from the main content
 - D. To compensate for poor storytelling or production quality

50. Which visual effect is commonly used to transition between scenes or shots in a video?
- A. Chroma key
 - B. Slow motion
 - C. Crossfade
 - D. Lens flare
