FINANCIAL ANALYST TEAM (150)

NATIONAL 2025 FINALS

30 minutes preparation time

GENERAL GUIDELINES

1. **Formulate Questions:** As a team of judges, create two to three questions to ask at the end of each presentation. *Make sure to ask the same questions to every team.*
2. **Presentation Details:**
 - **Setup Time:** Teams have up to 3 minutes to set up.
 - **Presentation Time:** Each team has up to 10 minutes to present, followed by up to 10 minutes for judges' questions.
 - **Completion:** Excuse the teams after the judges' questions are finished.
3. **Judging Rules:**
 - **No Ties:** There can be no ties in the top 10 teams. Judges are responsible for breaking any ties.
 - **Ranking:** The administrator will fill out the ranking sheet before dismissing the judges.
 - **Multiple Sections:** If there are multiple sections, finalists will be chosen by selecting an equal number from each section.
4. **Post-Presentation:**
5. **Materials:** Give all Judges' Rating Sheets, Judge Evaluation Sheets, and contest materials to the administrator.
6. **Audience:** No audience is allowed in the contest room.

INITIAL CASE STUDY TOPIC

Ellie has always had a passion for gold jewelry and has decided to turn her hobby into a small business. For the past several years, Ellie has been selling her gold jewelry at trade shows and online. Ellie has received interest from several partners who want to place large orders and carry her products as part of their permanent collections. Ellie has been operating her business as a hobby but has decided that now is the time to create a small business and operate it full-time. Ellie does not know much about the different types of business organizations and would like your advice on what type of business she should start. Ellie will be investing \$100,000 of her own money into the business, in addition to contributing equipment worth \$400,000. Ellie estimates that this equipment still has 10 years of life left and estimates that she will be able to sell it for \$40,000 at the end of that time. Ellie has also secured a \$500,000 loan from First Bank with an annual interest rate of 5% for 10 years.

Based on last year's prices and her current orders, Ellie has created the following materials budget for the next six months. She normally marks up her jewelry at 32% of the price of the gold. Ellie does not keep any inventory of gold on hand since she is a made-to-order business.

Month 1	\$1,405
Month 2	1,240
Month 3	1,318
Month 4	1,390
Month 5	1,308
Month 6	1,230

Ellie estimates her other expenses to be as follows for the next six months.

Accountant	\$2,500
------------	---------

Marketing	5,000
Packaging	2,000
Shipping	3,000
Insurance	12,000
Rent	12,000
Supplies	3,000
Utilities	4,000

Ellie is currently owed \$6,000 from previous orders; 10% of the amount owed to Ellie is over 30 days past due.

As Ellie embarks on this entrepreneurial journey, she seeks advice on several critical aspects of starting and managing her business: the type of business entity to form, the inventory valuation method to use, the depreciation method to adopt, and the accounting for accounts receivables. Ellie has asked you to prepare a recommendation for these questions, as well as others that she has not considered, as well as pro forma financials to help her get her business off the ground.

ADDITIONAL SCENARIO FOR PRELIMS

Operational Expansion: Due to the increasing complexity of managing pricing and shipping logistics, Ellie recognizes the need to hire an assistant. She must decide whether this assistant should be an employee, a contractor, or another type of assistant. This decision will impact her business in terms of legal, financial, and operational aspects, including payroll, benefits, flexibility, and control over the work. Ellie must evaluate the advantages and disadvantages of each option to determine the best fit for her business needs.

POTENTIAL JUDGE’S QUESTIONS

1. What criteria should Ellie use to determine whether to hire an assistant as an employee, contractor, or another type of assistant, and how should she weigh the legal, financial, and operational implications of each option?
2. How would the costs associated with hiring an employee versus a contractor impact Ellie’s overall budget and financial projections?
3. How does the choice between an employee and a contractor affect Ellie’s control over work quality and flexibility in managing her operations?
4. What are the key legal and tax considerations Ellie needs to be aware of when deciding between hiring an employee, a contractor, or another type of assistant?
5. How can Ellie assess whether hiring an assistant will improve her operational efficiency, particularly in managing pricing and shipping logistics?
6. What steps should Ellie take to effectively integrate and train her new assistant, regardless of the employment type, to ensure smooth business operations and alignment with her company’s goals?
