

Member ID: _____

Time: _____

Rank: _____

FUNDAMENTAL SPREADSHEET APPLICATIONS (230) NATIONAL 2025

PRODUCTION (90 minutes)

Job 1: Sort/Filter & Subtotals _____ (100 points)

Job 2: Formulas _____ (80 points)

Job 3: Charts _____ (110 points)

TOTAL POINTS _____ (***290 points***)

INDUSTRY CERTIFICATION (50 minutes)

MOS Excel Associate Certification

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any. Failure to do so will result in disqualification.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

EXAM GUIDELINES:

1. Ensure this test booklet contains Jobs 1-3.
2. Key all jobs according to the instructions given.
3. Correct any and all formatting, spelling or grammar errors. Use the formatting guide in the *Style & Reference Manual*.
4. Your name or initials should *not* appear on any work you submit. Use your Member ID in any occasion you would normally key your reference initials.
5. In the lower **right** hand corner of ALL work submitted (unless otherwise specified), key your Member ID and job number.
6. If you complete the event before the end of the time allotted, notify the proctor. Time may be considered a factor in determining a winner when there is a tie score.

PART ONE Instructions: Production

Once you have completed both jobs listed below, upload all competition materials (including project files, etc.) to the National BPA Pre-submit System at presubmit.bpa.org.

FSA-Job1-MemberID.pdf

FSA-Job2-MemberID.pdf

FSA-Job3-MemberID.pdf

PART TWO Instructions: Industry Certification

This exam requires the MOS Excel Associate Certification. Please do not leave your seat or exit the room until you have completed the certification. After the certification has been administered, you are permitted to leave.

Job 1 – Sort/Filter and Subtotals

Directions: Open the Employee Data spreadsheet from the folder.

Complete the project and add Filters and Subtotals to the data.

Sort and Filter Data

Apply a Custom Sort the Data and sort by Department (A to Z), then by Last Name (A to Z)

Turn on Filters to the data.

Apply the following filters to the data

Department – Show Kane Regional Centers & Parks

Last Name – begins with C, D OR E

Annual Salary – >\$40,000

Remove anyone with a Pay Status ‘Terminated’

Subtotals

Using the Filtered Data, apply a Subtotal with the following settings.

Subtotal at each Department by adding a row directly after the last row for each department. Include the following cells for each department: ‘Subtotal’(column K), ‘Department Name’(column L), and ‘Sum’ (column M).

Subtotal each Department using the Sum function

Create a Total by adding the department subtotals in the row after the last Department Subtotal.

Include the following cells: ‘Total’ (column K) and ‘Sum’ (column M).

Formatting

Change the font to Times New Roman, 12 pt. for all of the data.

Bold the Heading, Subtotal, and Total rows.

Apply a Light Grey, Background 2, Darker 75% Fill color to the Heading row, Subtotal, and Total cells.

Change the Heading, Subtotal, and Total font to White

Add ALL BORDERS to the cells with data.

Apply the Currency number format to Columns M:Q.

Bold the Subtotal & Total amounts

Resize Columns to accommodate ALL data if necessary.

Printing

Change the Orientation to Landscape.

Scale to fit

In the footer, key your Member ID and job number and align to the right.

Print the Spreadsheet.

Job 2: Formulas

Directions: Estimate future salary costs using the formula

Add Column to Table

Using the Filtered Data, estimate future salaries.

Add a column to the right of the Table.

Type the heading 'ESTIMATED_SALARY' as header.

Formulas

Enter the necessary formula in the 'ESTIMATED_SALARY' column to calculate a 4% increase in ANNUAL_SALARY.

Copy the formula to all cells in the column.

Create the Subtotal & Total formula for 'ESTMATED_SALARY' column.

Formatting

Ensure the new column has the same formatting as the table.

Apply the Currency number format to new column.

Hide the following columns: 'ELECTED_OFFICIAL', 'REGULAR_PAY', 'OVERTIME_PAY', 'INCENTIVE_PAY', and 'GROSS_PAY'

Resize Columns to accommodate ALL data if necessary.

Printing

Change the Orientation to Landscape.

In the footer, key your Member ID and job number and align to the right.

Print the Spreadsheet

Show the Formulas on your spreadsheet

Print the spreadsheet.

Job 3: Charts

Directions: Create chart using the data in the using the Filtered Data

Create a Chart to Display the Increase in Annual Salary for Kane Regional Centers & Parks

Using the Filtered Data from Job 2, create a new sheet called 'Salary Increase Chart'

On the 'Salary Increase Chart' worksheet enter the following:

A3 Department

A4 Kane Regional Centers

A5 Parks

B3 Current Salary

C3 Estimated Salary

In cell B4 reference the cell that has the 'ANNUAL_SALARY' for 'Kane Regional Centers'.

In cell B5 reference the cell that has the 'ANNUAL_SALARY' for 'Parks'.

In cell C4 reference the cell that has the 'ESTIMATED_SALARY' for 'Kane Regional Centers'.

In cell C5 reference the cell that has the 'ESTIMATED_SALARY' for 'Parks'.

Insert a 3-D Clustered Column chart using the data in cells A3:C5.

Change the chart title to 'Salary Increase'.

Increase the font size of the Series Data labels to Times New Roman 14 pt.

Formatting

Format data in cells A3:C5 to match the table (row 3 should be header text)

Resize Columns to accommodate ALL data if necessary.

Printing

Change the Orientation to Landscape.

In the footer, key your Member ID and job number and align to the right.

Print the spreadsheet.

Show the Formulas on your spreadsheet

Print the spreadsheet.
