<i>TOTAL POINTS</i>	<i>_____ (280 points)</i>

INDUSTRY CERTIFICATION (50 minutes)

MOS Excel Expert Certification

Test Time: 90 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any. Failure to do so will result in disqualification.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

EXAM GUIDELINES:

1. Ensure this test booklet contains Jobs 1-3.
2. Key all jobs according to the instructions given.
3. Correct any and all formatting, spelling or grammar errors. Use the formatting guide in the *Style & Reference Manual*.
4. Your name or initials should *not* appear on any work you submit. Use your Member ID in any occasion you would normally key your reference initials.
5. In the lower **right** hand corner of ALL work submitted (unless otherwise specified), key your Member ID and job number.
6. If you complete the event before the end of the time allotted, notify the proctor. Time may be considered a factor in determining a winner when there is a tie score.

PART ONE Instructions: Production

Once you have completed both jobs listed below, upload all competition materials (including project files, etc.) to the National BPA Pre-submit System at presubmit.bpa.org.

ASA-Job1-MemberID.pdf

ASA-Job2-MemberID.pdf

ASA-Job3-MemberID.pdf

PART TWO Instructions: Industry Certification

This exam requires the MOS Excel Expert Certification. Please do not leave your seat or exit the room until you have completed the certification. After the certification has been administered, you are permitted to leave.

Job 1 – Create Macro

BEFORE you start ensure Macros are enabled in Excel. If this option is not available under ‘Developer’ on your menu, or you do not have ‘Developer’ as a menu option, follow these instructions to gain access to these features.

1. Select **Excel>Preferences>Ribbon & Toolbar**
2. In the right pane check the box for ‘Developer’
3. Select **Developer** (should be green)
4. Click the + and select **New group**
5. With **New Group** selected scroll down on the left pane and select **Macros**
6. Click the > in between panes & **Macros** should be listed under the **New Group** in the right pane
7. Click **Save**

Task: Create a Macro to format worksheet

1. Open the Fruit Prices.xls spreadsheet.
2. Create a Macro to format tables.
 - a. Macro Name ‘Nationals_Baby’
 - b. Store Macro in the workbook
 - c. Use ‘N’ for the shortcut key
 - d. Enter the following description: ‘This macro will format tables’
3. Record ‘Nationals_Baby’ Macro to complete the following functions when run:
 - a. Set table font to Times New Roman 12 pt.
 - b. Insert 3 rows between rows 1 & 2.
 - c. Row 1
 - i. Merge cells A1:H1
 - ii. Height: 33 pixels
 - iii. Font: 26 pt.
 - iv. Fill color: dark red
 - v. Text: white.
 - d. Row 2 & 4
 - i. Height 15 pixels
 - e. Row 3
 - i. Height to 20 pixels.
 - f. Row 5
 - i. Height: 20 pixels
 - ii. A5:H5 Font: 14 pt.
 - iii. A5:H5 Background White 1, Darker 25%
 - iv. A5:H5 Text: black.
 - g. Column H
 - i. Format to currency
4. Add a button to run Macro
 - a. Assign ‘Nationals_Baby’ Macro
 - b. Edit button text to read ‘Nationals Baby’
