

MEMORANDUM

TO: All Staff

FROM: Julie Smith, Human Resource Manager

CC: Harold Peterson

DATE: Current Date

SUBJECT: New Inventory System

As we have announced previously, our company will begin using a new inventory system starting Aug. 20, 2025. This new system will make it easier to communicate with vendors and reduce delays or errors with a shipment. Since we have early access to training materials, we want to train all staff in the purchasing and production departments on how this system works.

The new inventory system is exciting, and we believe it will help us expedite orders and improve efficiency.

This is a mandatory training session that you will complete before Aug. 18, 2025. We will offer several dates for employees to complete this session via email, so register for the date and time that suits your schedule.
