Project: Digital Solutions develops and sells software, hardware, and services. The services provided are: systems analysis, software development and design, marketing, training development, and hardware and software sales. Digital Solutions uses several vendors to help accomplish all of the various services.

Julie Smith, Human Resources Department manager, has asked you to create a database to keep track of all of the vendors. Create a database named **State-XX-XXXX-XXXX**, and save it as directed by the administrator.

Job 1a: Vendor Table

1. Create the table named **Vendors XX-XXXX-XXXX** shown below. Use the same field names and assign the best data type for each field. VendorID is the primary key.
2. Enter all records shown below:

VendorID	Vendor	StreetAddress	City	State	ZipCode	WorkPhone
AX345	Acquia	53 State Street	Boston	MA	02109	617-388-9493
