Advanced Interview Skills

(520)

STATE 2025

PRELIMINARY

Description

Assess proficiency in job search and interview situations.

Contestant will indicate on his/her résumé the position for which he/she is applying. There are openings in all departments of Digital Solutions shown on the Organizational Chart.

Contestant may interview for any position listed on the Organizational Chart for which he/she is qualified.

Information in the cover letter and résumé must be authentic; however, contestants may choose to use a fictitious personal address and telephone number. The use of references on the résumé is optional.

No other materials will be allowed (i.e., business cards, thank-you notes, etc.) during the remainder of the Advanced Interview Skills contest.

Portfolio will not be submitted; the contestant will take the portfolio into the interview to be used to demonstrate job competence. Portfolios must *not* be left with judges.

Be consistent by asking each contestant the same questions. Questions should be taken from the following list or be similar in nature, however this does not preclude a judge from asking other questions to facilitate the interview. Please ask questions relevant to the position and/or company, as listed on the organizational chart provided. Here are some recommended questions:

1. Do you feel having this portfolio will be an advantage or disadvantage in receiving an offer for this position?
2. What technical tools or software are you familiar with? How have you applied them in your previous work or studies?
3. How do you approach learning new concepts or tools that you're not familiar with?
4. How do you handle negative feedback? Can you give an example of how you've applied feedback to improve your work?
5. What interests you about this position and our company? How does it align with your career goals?

***Note to judges:* Be sure to ask the contestant: Do you have any questions for us?**
