Rank: _____

Medical Coding

(600)

STATE 2025

Multiple Choice and Practical Application:

Multiple Choice (15 @ 5 points each) _____ (75 points)

Practical Application (10 @ 5 points each) _____ (50 points)

Total Points _____ (125 points)

Test Time: 60 minutes

GENERAL GUIDELINES:

Failure to adhere to any of the following rules will result in disqualification:

1. Member must hand in this test booklet and all printouts if any. Failure to do so will result in disqualification.
2. No equipment, supplies, or materials other than those specified for this event are allowed in the testing area. No previous BPA tests and/or sample tests (handwritten, photocopied, or keyed) are allowed in the testing area.
3. Electronic devices will be monitored according to ACT standards.

Multiple Choice Questions

Directions: Identify the letter of the choice that best completes the statement or answers the question.

1. What is the purpose of the CPT code modifier -26?
 - A. Identifying a procedure performed multiple times
 - B. Designating a professional component of a service
 - C. Denoting a repeat procedure
 - D. Signifying an emergency service
2. Which code set is used for reporting diseases, conditions, and external causes of injury or disease in the hospital inpatient setting in the United States?
 - A. ICD-10-CM
 - B. CPT
 - C. HCPCS
 - D. ICD-10-PCS
3. Which section of the CPT manual would you consult for codes related to immunizations?
 - A. Anesthesia
 - B. Radiology
 - C. Pathology and Laboratory
 - D. Medicine
4. In the CPT manual, what does the term “unlisted procedure” refer to?
 - A. A procedure that is not specific to a certain specialty
 - B. A procedure that does not have a specific code
 - C. A procedure performed without proper documentation
 - D. A procedure that is unrelated to the patient’s diagnosis
5. What is the significance of the seventh character in certain ICD-10 codes, particularly those related to injuries?
 - A. It indicates the patient’s age
 - B. It signifies the patient’s gender
 - C. It denotes the encounter type
 - D. It specifies the episode of care or stage of healing
6. Which of the following is an example of a Level II HCPCS code?
 - A. 99213
 - B. 31500
 - C. J3420
 - D. I11

7. In the context of medical coding and billing, what does the term “ABN” stand for?
 - A. Advance Beneficiary Notice
 - B. Assignment of Benefits Notice
 - C. Advanced Billing Notification
 - D. American Billing Network
8. What does the term “upcoding” refer to in medical coding practices?
 - A. Assigning a code with lower specificity than the actual service provided
 - B. Downgrading a code to reduce reimbursement
 - C. Assigning a code with higher specificity than the actual service provided
 - D. Using outdated codes for billing purposes
9. Which coding system is used for reporting procedures and services related to durable medical equipment, prosthetics, orthotics, and supplies?
 - A. ICD-10-CM
 - B. CPT
 - C. HCPCS
 - D. ICD-10-PCS
10. What is the purpose of the CPT code modifier -59?
 - A. Denoting a repeat procedure
 - B. Indicating an unrelated procedure during the same session
 - C. Signifying a discontinued procedure
 - D. Identifying a bilateral procedure
11. Which of the following is an example of a code used for ambulance services?
 - A. A0422
 - B. 99215
 - C. 29881
 - D. G0008
12. In medical coding, what does the term “LCD” stand for?
 - A. Laboratory Code Directive?
 - B. Local Coverage Determination
 - C. Limited Coding Documentation
 - D. Longitudinal Clinical Diagnosis
13. Which of the following is an example of an ICD-10-PCS code used for a specific surgical procedure?
 - A. 99203
 - B. OB9M0ZC
 - C. G0477
 - D. J45.1

14. What is the purpose of the “excludes1” note in the ICD-10-CM coding guidelines?
- A. To indicate that codes listed together are mutually exclusive and cannot be coded together
 - B. To provide additional specificity for certain diagnoses
 - C. To indicate that a particular condition cannot occur with another condition listed elsewhere
 - D. To provide guidance on when to use additional codes
15. When assigning E/M codes, what key components are used to determine the level of service according to the CMS guidelines?
- A. Complexity of the patient’s condition, time spent with the patient, and medical necessity
 - B. History, chief complaint, and provider’s qualifications
 - C. History, exam, medical decision making
 - D. Complexity of the patient’s condition, risk factors, and patient demographics

PRACTICAL APPLICATION

Directions: Use current ICD-10-CM, ICD-10-PCS, CPT and HCPCS coding manuals to code the following scenarios. Do not include modifiers or external cause codes. All answers must be legible. Scenarios may require multiple codes. Scenarios may require codes from more than one coding manual.

1. During an inpatient stay, a patient underwent a simple incision and drainage of an abscess located in the left upper arm. _____
2. Outpatient diagnostic upper gastrointestinal endoscopy with biopsy of a suspicious lesion in the stomach. _____
3. The patient underwent a total thyroidectomy during their inpatient stay. _____
4. Simple repair of 5 cm laceration on right forearm. _____
5. Patient presented with pain in left ear. The provider diagnosis is otitis media in the left ear. _____
6. Removal of multiple polyps via washing, during routine screening colonoscopy (flexible type). _____
7. Electrocardiogram (ECG) with interpretation and report. _____
8. A patient was diagnosed with chronic obstructive pulmonary disease exacerbation during a hospital admission. _____
9. A patient provided with a continuous positive airway pressure machine for the treatment of sleep apnea. _____
10. A patient is fitted with a prefabricated gauntlet-style ankle orthosis for the treatment of foot drop. _____
