

(560) Presentation Team

Description & Eligibility

Using current technologies and software, prepare and deliver an effective multimedia presentation on the topic provided. Any postsecondary and secondary division contestant may enter this judged team event. A team will consist of 2-4 contestants. A contestant may *not* participate in more than one of the following events in the same year: Presentation Team and Prepared Speech. A previously used presentation may *not* be used. **Entries that do not follow the provided topic or the Copyright and/or Fair Use Guidelines will be disqualified.**

Topic

Last month, headlines revealed that a popular educational app—required by the school and installed on nearly every student’s phone—had been quietly collecting and selling students’ location and browsing data. Outrage spread across campus, but a follow-up discussion with the school’s technology department uncovered something even more troubling: most students believe that tools like “Incognito Mode” or social media privacy settings protect their data.

Now, your team has been selected to become the student voice of truth. Research the biggest personal data myths your peers believe, expose the hidden realities, and propose simple protections that keep today’s apps convenient—but safe. You will deliver a 7-10-minute multimedia presentation of your findings to your school’s technology department for review.

Points to consider include but are not limited to:

- Myth-Busting Spotlight: Identify three common privacy myths among students. Pair each myth with a powerful fact or statistic that exposes the truth.
- Student Sentiment Snapshot: Poll your classmates about the myths. Present the results using a clear, visual format (bar or pie chart) to highlight gaps between perception and reality.
- Local Impact Story: Share a concise, relatable story showing how the misuse of personal data could directly harm students, especially when the school endorsed the app.
- Quick Win Toolkit: Recommend three fast, actionable steps students can take today to improve their digital safety—plus one school-wide initiative to prevent future issues.
- Success Metric: Define one measurable way to track progress. Clarify who will gather the data and how the results will be reported back to the school’s technology department.

Team Must Supply

- One (1) copy of the Works Cited formatted according to the *Style and Reference Manual* and signed BPA Release Form(s) for each round of the event (preliminary and final).
- Digital presentation tools and supporting equipment (device, software, projector, extension cords, etc.).

Contest Notes

- Method of evaluation: judged.
- Carry-in and setup of equipment must be done solely by the team and must take place within the time allotted
- No Internet access will be provided on-site at NLC; however, teams may provide their own access to be used only for their presentation to the judges.
- Length of event: no more than three (3) minutes setup, no less than seven (7) and no more than ten (10) minutes oral presentation, no more than five (5) minutes judges’ questions.
- Finals may be part of the competition.
- Each state is allowed three (3) entries.

Contest Competencies

- Evaluate and delegate responsibilities needed to perform required tasks
- Demonstrate effective teamwork skills needed to function in a business setting
- Apply technical skills to create a multimedia presentation which will enhance the oral presentation
- Demonstrate effective oral communication skills
- Secure facts and data from multiple sources, emphasizing research skills
