

## (230) Fundamental Spreadsheet Applications

Certiport Parental Consent Form  
**REQUIRED**

### Description & Eligibility

Create and design spreadsheet applications that include variables, reports, and formats. Contestants enter and format data, enter and copy formulas, and print full documents or cell contents. Any postsecondary or secondary division contestant may enter this application event. Contestants may *not* enter Fundamental and Advanced Spreadsheet Applications in the same year. This event may *not* be repeated.

### Contestant Must Supply

- Published and/or unpublished non-electronic written reference materials

### Equipment/Supplies Provided

- Computer and software

### Competition Notes

- Method of evaluation: application.
- All student-produced jobs completed on-site are uploaded electronically and are not printed at the national level.
- Previous Business Professionals of America tests and/or sample tests (handwritten, photocopied or keyed) may not be taken into the testing area. **Violation of this rule will result in disqualification.**
- Length of event: no more than ten (10) minutes orientation, no more than ninety (90) minutes testing time, and no more than ten (10) minutes wrap-up.
  - No more than fifty (50) minutes for certification test
- At NLC, contestants will take MOS Excel 365 Associate certification as part of the event. Contestants passing this certification will have 50 points added to their event score. A Certiport profile must be created at [www.certiport.com](http://www.certiport.com) before attending NLC. Contestants must include their BPA Contestant ID in their Certiport profile when they register. For more information on the exam, visit [www.certiport.com](http://www.certiport.com). Reference materials are not allowed for certification testing.
- Entries vary by state.

### Contest Competencies

- Create and format worksheets and workbooks
- Analyze, format, enter, and edit data in cells, worksheets, and workbooks
- Utilize cell references including Mixed, Absolute, and Relative, as well as references to other sheets in the same workbook
- Analyze, create, and modify charts from data
- Create formulas and functions appropriate for the task at hand
- Use styles and data validation
- Use outline for groups and subtotals
- Display formulas
- Modify print options
