

(240) Database Applications

Certiport Parental Consent Form
REQUIRED

Description & Eligibility

Demonstrate database development skills to include object creation, data analysis, formula creation, and reporting features used in a variety of database scenarios. Any postsecondary or secondary division contestant may enter this application event.

Contestant Must Supply

- Published and/or unpublished non-electronic written reference materials

Equipment/Supplies Provided

- Computer and software

Competition Notes

- Method of evaluation: application.
- All student-produced jobs completed on-site are uploaded electronically and are not printed at the national level.
- Previous Business Professionals of America tests and/or sample tests (handwritten, photocopied or keyed) may not be taken into the testing area. **Violation of this rule will result in disqualification.**
- Length of event: no more than ten (10) minutes orientation, no more than ninety (90) minutes testing time, and no more than ten (10) minutes wrap-up.
 - No more than fifty (50) minutes for certification test
- At NLC, contestants will take MOS Access 2019 Expert certification as part of the event. Contestants passing this certification will have 50 points added to their event score. A Certiport profile must be created at www.certiport.com before attending NLC. Contestants must include their BPA Contestant ID in their Certiport profile when they register. For more information on the exam, visit www.certiport.com. Reference materials are not allowed for certification testing.
- Entries vary by state.

Contest Competencies

- Apply relational database concepts (joining tables for report information)
- Demonstrate knowledge and understanding of database management
- Utilize database management software
- Create and format databases including defining fields
- Demonstrate text and data manipulation
- Design a form for data entry
- Demonstrate the ability to import and export data in various formats
- Use formulas in fields to develop information from other fields
- Build and produce formatted reports that include group totals, report totals, and generated columns (data derived from other fields in the report)
- Analyze data in reports
